Communist Leaders Ask Socialists to Join In United Front Against Shidehara Regime

### MORE HIDDEN WEALTH

Tokyo, Oct. 19.—(P)—Japanese Communist leaders asked the Socialist party today to join in a united front against the Shidehara government, which they said "has no ability to cope with the present situation."

The Socialists did not reply immediately. Further talks between the groups were set for tomorrow, but the National Federation of Toilers, a workers' organization strongly denounced the Communist suggestion at the first Toilers' mass meeting since the surrender.

Meanwhile, Foreign Minister Shigeru Yoshida told his first press conference the chief task of Premier Kijuro Shidehara's cabinet was to carry out terms of the Potsdam conference as smoothly and as rapidly as possible "to demonstrate our good faith through deeds."

Communist leaders Yoshie Shiga, Shigeo Kamiyama and Ichizo Matsumoto called at the office of the Japanese Socialist party and formally asked the party to join in opposing the cabinet.

The Communists and the Socialists once were bitter political foes but Shiga expressed belief that the groups could cooperate in a "united single trade union."

The Toilers drew a capacity audience at their first mass meeting.

Yoshida, veteran Japanese statesman who once was mentioned prominently as a possible successor to resigned Premier Prince Higashikuni, told his first foreign press conference he had no plans for the foreign ministry.

"Japan at the present moment is a defeated nation and has no diplomacy," he said. "Our chief task is to carry out terms of the Potsdam declaration smoothly and rapidly as possible."

He defended the Zaiatsu, wealth-controlling industrial families of Japan whose holding companies recently announced plans to offer shares of stock for sale to the public, as the people who brought "prosperity" to Japan in peace time.

Allied headquarters, which has been recovering hidden wealth in gold, silver and precious gems from Japanese chicken coops, barns and thermos jugs, froze the (Turn to Page Thirteen)

## Physician To Gen. MacArthur to Return

Tokyo, Oct. 19.—(P)—Col. Roger O. Egeberg, General MacArthur's personal physician, is flying home to Cleveland for discharge, leaving his chief "in perfect physical condition," headquarters reported today.

Colonel Egeberg, who has made the long, fighting trip from Australia to Tokyo with MacArthur, is expected to visit his home before proceeding to a separation center to shed his silver eagles.

MacArthur's headquarters spokesman reported the general "has never been more fit than at present, in the entire four years of the campaign."

The spokesman acknowledged that a New York gossip columnist whom he did not identify had forecast MacArthur's retirement because of "serious heart disturbances," and snapped:

"There is not the slightest word of truth in such gossip."

## BUSINESS INDEX IN DISTRICT IS DOWN

Pittsburgh, Oct. 19.—(P)—Business in the Pittsburgh district shot down 14 points in the last week, largely due to the coal strike, the Bureau of Business Research of the University of Pittsburgh said today.

The rating for the area on the bureau's chart at the end of the week was 131.7 per cent of the 1935-39 average. However, department store sales for the four weeks ended Oct. 13 were 14.9 per cent above those of the comparable period in 1944.

## Last Civil War Veteran In McKean County Dies At 102

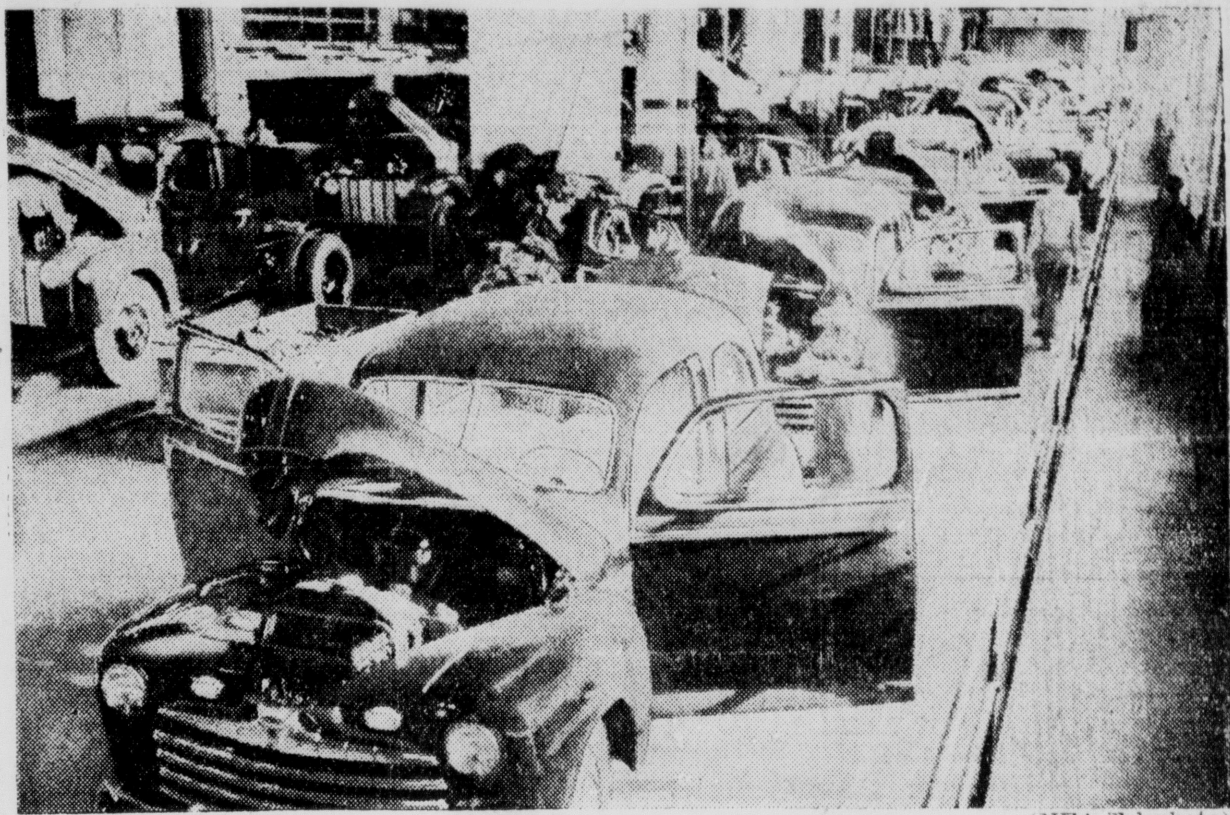

Bradford, Oct. 19.—(P)—Erasmus Rockwell Barton, onetime lumberjack who fought in the Civil War under Gen. Grant and cast his first vote for Abraham Lincoln, died yesterday at the age of 102.

He was McKean county's last surviving veteran of the war of 1861. He enlisted after his father, Henry Barton, was discharged and fought 14 months with the 211th Pennsylvania, taking part in the battles of Stony Creek, Fredericksburg, Hancock Station, Petersburg and Richmond.

Friends said he was extremely active for one of his advanced years and told how he astonished relatives by dancing a jig on the dining-room table on his 100th birthday.

His eyes remained good until a

## Brothers Have Odd Reunion In Service

Fort Douglas, Utah, Oct. 19.—(P)—Three Montana brothers had a brief reunion at Fort Douglas today—One was processed out of the army, another was inducted into military service and the third did the checking.

Leroy Jensen, 18, joined the army. Sgt. Girard Jensen, 26, veteran of fighting in Europe, was discharged and the clerk at the personnel center is Corp. Myron Jensen, 24, a veteran of the Pacific War.

## No Reduction On Luxuries In Prospect

Washington, Oct. 19.—(P)—Prospects dimmed today for a tax reduction next July 1 on such things as whisky, fur coats and jewelry.

Heavy opposition developed within the senate finance committee against cutting back the special excise levies on that date to their prewar levels, as voted by the house in the pending tax reduction bill.

Experts estimate the half-year revenue loss from such a reduction at \$535,000,000.

Other tax cuts already approved by the committee aggregate \$4,780,000,000, and Chairman George (D-Ga.) is trying to hold the total slash to the \$5,000,000,000 limit recommended by Secretary of the Treasury Fred M. Vinson.

Motions have been made to delay the excise reductions until Jan. 1, 1947, or even until the following July 1.

When and if the excise taxes go back to their pre-war levels, here are some samples of the rate changes: Furs, jewelry, cosmetics and luggage, from 20 per cent of retail price to 10 per cent; liquor from \$9 a gallon to \$6; beer from \$3 a barrel to \$7; electric light bulbs from 20 per cent to 5; long distance telephone calls from 25 per cent to 20; railroad ticket tax from 15 per cent to 10.

The senators have approved reductions totalling \$2,085,000,000 for individual income taxpayers, \$2,555,000,000 for corporations and \$140,000,000 for automobile and boat owners through repeal of the \$9 annual use tax next July 1.

## DESPONDENCY LEADS TO ERIE CO. SUICIDE

Erie, Oct. 19.—(P)—Police Lt. George Wochner said Clair Allen, 30, of Waterford R. D. 7, fired a fatal bullet into his breast yesterday, a few minutes after his estranged wife, Reva, rejected his plea for reconciliation.

They met at the gatehouse of Talon, Inc. Reva walked away, leaving Clair sitting in the car. She heard a shot. When she reached the car, her husband was dying.

## Leaders in State Charity To Be Heard at Penn. Welfare Conference Here October 26

Top-ranking leaders in state charity will speak at the Pennsylvania Welfare conference for Warren and Forest counties at the YWCA activities building next Friday, October 26. This, the first welfare conference ever to be held in Warren, opens at 10:30 a. m., closing around 4:30. The public is invited.

The Hon. Robert S. Wray, acting secretary of Pennsylvania's Department of Public Assistance, will address the group at 2:15 on "The Aims of Pennsylvania Welfare Now—in the County; in the State."

Mr. Wray, a member of Governor Martin's cabinet, has consented to speak here Friday because he knows of the great need for keeping not only the professional workers, but lay members of their boards and the public in general acquainted with Pennsylvania's great welfare program.

The honorable John C. O'Neil, president of the state organization the Pennsylvania Welfare Conference speaks following Mr. Wray. He has chosen "What the P. W. F. Conference Can Do for Our Children" as the subject he will discuss. Formerly a county commissioner from Washington county, Mr. O'Neil has a background of long experience.

At the close of the afternoon, speeches there will be a discussion period. Mrs. Mary T. Demman, field representative of the Public Charities Association in Pittsburgh, and a lawyer as well, will discuss "What are Pennsylvania Legislators Doing for Our Children?" Mrs. Demman, speaker of the morning session has been judged by those who have heard her as a brilliant and charming speaker.

The Honorable Allison D. Wade, President Judge of Warren and Forest counties has been selected as the luncheon speaker. He will talk on "The Problems Your Child Must Meet."

The program committee, headed by Mrs. Albert Rockwell, has spent weeks planning this conference. It is hoped that this, Warren's first get-together of those interested in social betterment, will be something long to be remembered.

This will be the first opportunity many of the men and women on our local boards will have had to get a picture of public assistance work in the county and state, and to hear, direct from state leaders in just what ways all social agency groups may live up to modern standards.

"There has long been a need for closer cooperation among our social agencies . . . It is time for (Turn to Page Nine)

## Peron Again Is In Power In Argentina

By LAURANCE F. STUNTZ  
Buenos Aires, Oct. 19.—(P)—Col. Juan Domingo Peron will be permitted by the army to run for president next April 7, a reliable source reported today as a stunned populace dazedly accepted his swift return to power.

But the army, patently the power behind Peron and President Edelmiro Farrell, was reported to have stipulated further that the government must remain impartial in the elections, giving no direct aid to Peron.

This source said the army, represented by the powerful Campo de Mayo garrison, had laid down conditions for Peron's return from custody to the dominating position in Argentina's violent politics.

As for Gen. Eduardo Avalos, leader of the Oct. 9 movement, who had taken Peron's post of war minister, one report said he had patched up his difference with the strong man after quitting the war ministry.

Midnight brought an official end to the 24-hour general strike which had paralyzed the capital and left it in the hands of marching demonstrators—many of them youngsters below voting age who professed allegiance to Peron because their apprentice schools had been formed by him.

The commander of the 10th Army on Okinawa was met by his wife and three daughters. He had ordered the plane to take off from Hawaii, despite threatening weather, because he wanted to reach his Carmel home for the anniversary.

Monterey, Calif., Oct. 19.—(P)—A big, silver B-17 from Honolulu "buzzed" a Carmel home here and then landed at the Monterey airport. Out stepped a plain, tall, gangly man wearing a battered campaign hat. Gen. Joseph Stilwell was back from the wars just in time to spend his 35th wedding anniversary with his family.

## REVOLUTION IS SPREADING IN VENEZUELA

United States Embassy Officer at Caracas Fired On in Course of Increasing Revolt

### REBELS GAIN ACADEMY

Washington, Oct. 19.—(P)—A United States embassy officer at Caracas was fired on last night in the course of spreading revolution in Venezuela.

The conflict is between rebel military and government forces. The incident involving the embassy official was disclosed by the state department today in making public dispatches from Ambassador Frank P. Corrigan on the revolt.

The upheaval according to these official reports, began at 3 p. m. yesterday at San Carlos barracks near Caracas and by residents of Miraflores and the nearby military academy.

Meanwhile, government forces under the leadership of President General Isiah Medina Y Angarita, who has taken personal command, have captured the San Carlos barracks.

Heavy firing was reported this morning shortly after midnight, according to a dispatch which indicated that the shooting took place at Caracas.

At the town of Maracay, about 30 miles east of the capital, it was reported that there was heavy fighting and that the rebels had some motorized equipment at their disposal.

The state department's cables from Ambassador Corrigan were, at least in some instances, timed at 9 p. m. yesterday, Venezuelan time, but were not filed until daylight today.

Inquiry disclosed that cable communication between the embassy at Caracas and the state department was interrupted during the night.

Indications were that there is some confusion in Caracas, at least, and that this condition may extend to other parts of the country. The limits of the revolt, therefore, could not be precisely determined.

Nor was there authoritative data here on the issues involved. One official said that the fighting has nothing to do with the Argentine situation as far as is known in Washington.

## Peiping Scene Of Outbreak Of Violence

By SPENCER DAVIS  
Peiping, Oct. 17.—(Delayed)—A crowd of Chinese attacked Japanese civilians in the little Tokyo district of Peiping last night in the first outbreak of violence here since the surrender of the Nippon forces.

Three deaths were reported. Other Japanese were beaten and stoned. The outbreak followed similar disturbances at Tientsin, where homes were entered and several hundred Japanese were beaten four days ago.

Local police re-established order quickly in Peiping and there were no recurrences. The Japanese were warned to stay in their quarters and streets normally crowded with both civilians and soldiers of Nippon were nearly deserted.

More than 50 Chinese troops and an American crew were killed today when a troopship bringing Chinese government soldiers into the north China occupation zone crashed in attempting to land at Peiping's Nanyuan airfield.

The assassination yesterday of the president of Korea's chamber of commerce at Tientsin was reported today. There were no details.

Meanwhile, under an accelerated schedule, 29 American-piloted troopships were arriving here today with Chinese government troops for the occupation.

Just before the arrivals, Nanyuan was the scene of another surrender ceremony.

## WOODSMEN NEEDED

Harrisburg, Oct. 19.—(P)—Florin J. Boland, state director of the U. S. Employment Service, said he planned to open a drive on Nov. 1 to obtain 5,000 men "urgently needed" in Pennsylvania's lumber mills. He said men are needed in a wide variety of skilled occupations, but added that men lacking in woods or mill experience would be acceptable if they meet physical requirements.

## Federal and Michigan State Officials Move To End Strike Interrupting Power Service

Federal and Michigan state officials moved today to end a strike of 2,000 CIO Utility Workers as emergency crews stayed on the job to maintain electric service to some 2,000,000 consumers.

John W. Gibson, special assistant to Secretary of Labor Schweitzer, was en route to a meeting in Lansing, called by Governor Harry F. Kelly in efforts to settle the walkout. Union leaders were to attend, but it was not known immediately whether representatives of the Consumers Power Company would be present.

Foremen of the struck Consumers Power Company, which services scores of communities in heavily industrialized lower Michigan, joined with non-strikers in staying in plants and sub-stations. The situation was described as "normal" by company spokesmen, but union leaders said it appeared unlikely the emergency crews would continue to maintain regular service. Detroit was not affected by the walkout, which started Thursday after breakdown of negotiations for wage increases.

Governor Kelly, who Thursday ordered 6,000 state troops and 400 state police to be ready for emergencies, said today that if necessary he would call upon "state facilities" to continue company operations. The workers, members of the CIO Michigan Utility Workers Council, are seeking a 30 cents an hour wage increase.

Meanwhile, across the country new and continuing labor disputes kept about 457,000 workers idle, including the 216,000 soft coal miners in six states who have until Monday to obey back-to-work orders from John L. Lewis, United Mine Workers president. Some of the miners, however, went back to the pits yesterday.

One of the country's major stoppages, the walkout of 35,000 AFL longshoremen in New York harbor was ended after 18 days, but still smoldering was the bitter fight between an insurgent group and union president Joseph P. Ryan.

In Washington, the house military committee prepared to take the first move toward new anti-strike legislation. A final hearing on repeal of the Smith-Connally War Labor Disputes Act was scheduled.

In Hollywood, the AFL Screen Actors Guild urged "immediate termination" of the AFL movie workers strike, in progress since last March over a jurisdictional dispute. Producer and union representatives continued efforts to settle the controversy, which affects from 3,000 to 7,000 workers. Picketing continued at studio gates.

CIO textile workers in Washington reported that 5,300 CIO workers were on strike at 11 plants in North and South Carolina and in Texas.

## HUSBAND QUESTIONED IN DETROIT MYSTERY

Pontiac, Mich., Oct. 19.—(P)—Police today resumed questioning of Louis V. Thompson, Detroit auto dealer, and his secretary, Mrs. Helen Budnik, in another effort to uncover a vital clue in the slaying of his wife, Mrs. Lydia Thompson of Detroit.

Oakland County Sheriff Edward K. Thomas said, "We just want to go over their entire stories once more to see if we can't get a definite lead. They've both been most cooperative and seem to be doing all possible to help us solve this case."

Thomas disclosed that two Detroit witnesses, sought for questioning had been apprehended and were released today after being interviewed at the sheriff's office.

## Bituminous Miners Returning to Pits

Pittsburgh, Oct. 19.—(P)—Work was resumed today at more than 50 of the 1,000-odd bituminous mines made idle by the great strike of mine bosses seeking recognition of their union.

Thousands of miners returned to their jobs. There was every indication that by Sunday, the day set by UMW President John L. Lewis in his "back-to-work" call, the great majority of 216,000 strikers would have re-entered the pits.

The steel industry, still crippled by the coal shortage, will continue curtailed operations until more fuel is available. It was hoped that full production could be resumed in 10 days or two weeks.

John McAlpine, president of the United Clerical, Technical and Supervisory Employees of the mining industry, the striking affiliate, said he joined in the Lewis back-to-work order.

## SIX ERIE PEOPLE ILL OF PTOMAINE POISON

Erie, Oct. 19.—(P)—Six persons were recovering from ptomaine poisoning today at Eriamont hospital.

Dr. E. L. Armstrong, hospital pathologist, said all of them reported they became ill after eating chicken salad sandwiches at a local restaurant.

The victims were: Miss Evelyn Leonard, secretary of Mayor Charles R. Barbour; Kathleen Holmes, 17; Mrs. Edna Oliver; her daughter, Georgia; Mrs. Priscilla Forbeck, and Virginia Thomas.

## DEFENDANTS HAVE 30 DAYS TO GET READY

Maj. Anthony Neave, British Lawyer, Gives Copies of Accusations to Men In Cells

### RIGHTS ARE EXPLAINED

By GEORGE TUCKER  
Nuremberg, Oct. 19.—(P)—The world's first great war criminals trial of 24 high Nazis and German militarists and industrialists will begin in Nuremberg on November 20, the International Military Tribunal announced today.

The date for the beginning of the proceedings to establish responsibility for the second World War and its cruelties was set by the tribunal shortly after the massive indictments presented to the court yesterday at its first sitting in Berlin had been served on 23 of the defendants here in the Nuremberg jail.

The 24th defendant, Martin Bormann, apparently still is at large and probably will be tried in absentia.

The indictments were served on the defendants, politicians, military, industrialists, and other functionaries in Hitler's Nazi regime—at 2:15 p. m. (8:15 a. m. Eastern Standard Time).

Maj. Anthony Neave, a British lawyer, gave copies of the 24,000-page accusation to the men in their carefully guarded cells. He explained to all exactly what their rights were.

Neave, in his military career, was captured by the Germans in the British retreat from Dunkerque. He escaped from a German prison camp in 1944.

The indictments were served on Hermann Goering, Rudolf Hess, Joachim von Ribbentrop, Robert Ley, Wilhelm Keitel, Ernst Kaltenebrunn, Alfred Rosenberg, Hans Frank, Wilhelm Frick, Julius Streicher, Walther Funk, Hjalmar Schacht, Gustav Krupp von Bohlen und Halbach, Karl Doenitz, Erich Raeder, Baldur von Schirach, Fritz Sauckel, Alfred Giedt, Franz von Papen, Arthur Seyss-Inquart, Albert Speer, Constantin von Neurath and Hans Fritzsche.

The formal indictment was presented yesterday in Berlin to the court which will try this greatest war crimes case in history. Judges and prosecutors of the United States, Russia, Great Britain and France participated.

The defendants have 30 days in which to prepare their defenses. The survivors of Hitler's regime, which sought at the cost estimated at 10,000,000 lives to dominate (Turn to Page Nine)

## Five Workmen Die In Furnace Pit

Bethlehem, Oct. 19.—(P)—A gas leak in the furnace pit of the Bethlehem Steel Company's Lehigh plant brought death to five men yesterday while four others, overcome by fumes, are in serious condition at St. Luke's hospital here.

The dead, identified by company officials, were Harold Snyder, Fountain Hills; Edward H. Rasely, Phillipsburg, N. J.; and Joseph St. Cloudrick, George Schneider and Michael Strako, all of Bethlehem.

Dr. D. H. Bachman, Northampton county coroner, said the men went into the pit to repair a leaking gas main.

Plant spokesmen said 20 other persons were treated at the company dispensary after entering the gas-filled pit to pull out the trapped workmen and the bodies of the five victims.

4/7 x \$88,700 = ?

The 1945 County War Fund Drive is past the midway mark! At the First Report Meeting Wednesday evening, results of two days' work—Tuesday and Wednesday—were chalked up.

At tonight's Second Report Meeting the results of two more days—Thursday and Friday—will go up on the blackboard.

Since only seven days have been allotted for the campaign's duration, it follows that, when the opening gong strike tonight at 7:30—the big brass bell with "Lions" engraved on it, which Ed. Johnson strikes with such an authoritative clangor—the big drive will be more than half over; four-sevenths over, to be exact. It also means that, if results are keeping pace with the expected time, we ought to show a grand total tonight of 4/7 times \$88,700, or—let's see, we never were very good on cerebral arithmetic—4-m-m—we ought to show a total of around \$50,686.

That right, eh?

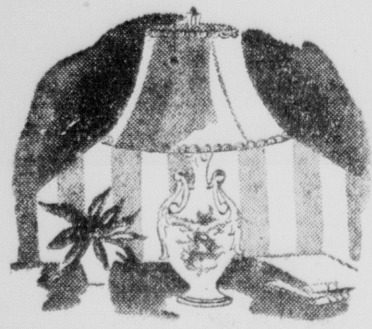

The question is: WILL we show that total?

Well, it's Friday morning now—ten a. m., and just nine hours and a half before the portentous bell rings tonight at the YWCA—and we see nothing to do but hold our breaths for nine and a half hours, and violently hope for the best. AND—urge every single worker to be there—to be there promptly—and to be there with a big report!

After the close of tonight's meeting, remember, only three days will remain—two if you rule out Sunday—until the Final Report Meeting Monday.

## Payroll Division for Bond Drive Swings Into Action

Every person who attended Thursday night's meeting for the Payroll Deduction Division of the 8th Victory Loan Campaign left convinced that no person with cash savings or a job has a valid reason for not buying more bonds. Our Armed Forces finished their job so we at home can live in peace and comfort—but we have not finished ours. We still have an obligation to bring the boys home, to give medical aid to those injured for us, and to take a place for them in a prosperous America.

**ATTENTION WARREN INDUSTRY**  
For Payroll Savings Deductions in 8th Victory Loan, SEND IN AT ONCE:  
1. Your Quota Sheets.  
2. Orders for Supplies.  
3. Other Materials.  
For information call Mrs. Knapp—2948.

from which we sent them. Warren County is not going to fail. We will finish our job in this final campaign. We will meet our quota—and more!

After introductory remarks by N. D. Paterson, H. W. Conarro called on all local plants to send in their quota sheets and orders for the supplies they will need. This must be done at once if the Payroll Division is to meet its quota of \$500,000. Many local plants have failed to do this and time is short. In a little more than a week the drive begins. Its success depends on teamwork.

Following Mr. Conarro's request for prompt cooperation from Warren Industry, Don Brockett, Deputy Manager of the Pittsburgh Payroll Division, explained why money is needed now that the war

is over. And the need is great. Fortunately, Americans have the money. Since Pearl Harbor the public has saved one hundred billion dollars and still has an excess in cash of over forty billions. They are now being asked to invest it in the safest bonds in the world.

The meeting concluded with the showing of two motion pictures by Gene Kelley, Pennsylvania State Director of the Payroll Savings Division. The first picture explained how the Sun Oil Company has made their payroll deduction plan one of the country's most successful. The second, "Diary of a Sergeant," told so vividly the story of one wounded soldier's fight to overcome his physical handicaps that it was minutes after the lights went on before anyone spoke. This picture showed more than any words ever written why all of us must buy bonds—why we are going to finish the job!

### TURKEYS PLENTIFUL

H. M. Sanders, of Sugar Grove spent some time in the city today. He is one of the large turkey raisers of the county and this morning expressed the opinion that turkeys will be plentiful for the holiday season. "The cost of feed however has been high this year," according to Mr. Sanders. Several other turkey raisers of the county also report large flocks. Many of the birds are now being sold in Warren markets and the price is about 50 cents the pound in most places.

An old sheet spread over the floor around the sewing table will catch threads and ravelings and make picking up easier.

#### THESE SHALL PREVAIL

John Rossman's apt invocation of Lincoln's second inaugural address at the first report meeting of the Warren County War Fund 1945 drive was a source of stimulating thought to all workers present. The famous speech delivered in March, 1865, not long before the president's death, proved, as do many of the utterances of great and wise men, as full of meaning today as it did in that tragic year.

It brought to our mind a poem we remembered seeing once in an anthology. We hunted it up and, after much searching, found it. Here it is:

#### "THESE SHALL PREVAIL"

War laid bugle to his lips, blew one blast—and then  
The seas answered him with ships, the earth with men.

Straight, Death caught his sickle up, called his reapers grim,  
Famine with his empty cup came after him.

Down the stairs of Paradise hastened angels three,  
Pity, and Self-Sacrifice, and Charity.

Where the curved, black sickles sweep, where pale Famine clings,  
Where gaunt women watch and weep, come these of wings.

When the red wrath perisheth, when the dulled swords fail,  
These three who have walked with Death—these shall prevail.

Hell bade all its millions rise; Paradise sends three:  
Pity, and self-Sacrifice, and Charity.

—Theodosia Garrison.

"Pity, Self-Sacrifice, and Charity." These are the noblest motives of mankind. They are all that is represented by Christianity. They are all that is opposed to war, conquest, human destruction. They animated Lincoln at the close of our tragic Civil War. They must animate Americans today not only if the War Fund campaign is to succeed but if the civilized world is to survive at all. The answer rests with every American and every Warren countian.

#### "These shall prevail"—or shall they?

#### THE WRONG APPROACH

"We just wanted to subscribe to these scripts the same way we'd subscribe to a newspaper or periodical," a memoer of the House Un-American Activities Committee is quoted as saying in explanation of the committee's request for transcripts of broadcasts by six prominent radio commentators.

One wonders, however, if the committee would have publicized its subscription to a newspaper or periodical. One wonders, too, if in spite of the committee member's disavowal that these requests were subpoenas, the commentators in question have not already been placed under suspicion by the publicity attendant upon this routine subscription.

No charge has been placed against the six broadcasters. But their scripts have been singled out for examination to determine whether they reflect any "subversive activity."

Somehow this seems the wrong approach in a country where a free press and free expression are basic rights. It smacks too much of damning innuendo and a desire to practice the intimidation which has been all too familiar in some other countries in recent years.

#### HOW MUCH LONGER?

During the end of this month and the beginning of next, the National Labor Relations Board is scheduled to conduct 42 strike votes, involving some 600,000 workers, in the Detroit area alone.

We don't know the precise sum that this performance will cost the tax-paying public, although it will run into many thousands of dollars. But certainly everyone knows that it is a senseless and useless expense, perpetuated under the wartime Smith-Connally Act which Congress has not yet seen fit to repeal.

It has been clear for the last two years that this act did not prevent strikes. Directed primarily against John L. Lewis, it was promptly requisitioned as a weapon by the canny mine workers' leader. Yet, with the war over, the government is still balloting workers to find out if they want to go through with a strike that would hamper the "war effort." And it's still costing the public money.

#### THE HIGH ART OF PRAISE

Considering that praise, when all's said and done, is the one thing for which every human being works and lives, isn't it surprising that more of it isn't used in everyday life? asks Ross Byron in Your Life.

When you honestly praise a man you give him a better opinion of himself, and also of you, because he likes anyone who sees enough merit in him to praise him.

Do not be afraid to use praise, if you can sincerely praise someone, because you will be using one force which will help you and others to experience more satisfaction and achieve more success.

## Who Made The Airplanes?

If the Axis didn't know what hit them it was because the warplane may have come from one of two or three plants other than that of the designer. Under a great pooling operation, the last inch of American aircraft production capacity was utilized, as the chart above will show. In addition to the picture of mutual effort the chart gives, components of aircraft produced by one company were built in other aircraft factories, some of which abandoned their own models to devote their entire effort to building only sections of warplanes. And sometimes a part developed for one plane was adapted to another; a North American landing gear went into the Northrop P-61 Black Widow, for example. The exchange of technical information ended with the war, however, and the councils for pooling efforts now are being dissolved.

THE STORY OF AMERICA'S

*Secret Weapon* #2*...and how SYLVANIA helped produce it!*

Sylvania Electric Products Inc. wins 22 of the 81 "E" Awards made by the Navy to 32 contractors who worked on the Radio Proximity Fuze Project!

# RADIO TUBES THAT *SENSE* TARGETS, *EXPLODE* SHELLS!

Tucked in the noses of anti-aircraft, field artillery and naval gun shells, these toughest, most precise little tubes in the world automatically detonate the projectiles within killing distance of their targets!

*A war project second only to the atomic bomb... carried on by the people of SYLVANIA ELECTRIC with utmost secrecy and success!*

WHILE Hitler built "secret weapons" with his propaganda machine, America put real ones into the fight—among them, radar and the radio proximity fuze.

Radio Proximity Fuze? The name itself doesn't convey much. But our naval gunners, our anti-aircraft and field artillerymen can tell you what it means, what it does.

Actually, this amazing fuze is a small, compact radio transmitting and receiving set, fitted in the nose of a shell. When fired, it sends out an unbroken radio signal. As the projectile comes within 100 feet of its target, this signal bounds back, creating an electrical charge which sets off the explosive.

The radio proximity fuze—very many times more effective than time fuzes—makes one gun as deadly as three or four—increases our offensive and defensive firing power several-fold!

Heart and brain of this sensational weapon is a tiny, precision-built radio tube. Words like "rugged" and "tough" can't describe it. How tough must a radio tube be to withstand the jolting shock of direct heavy gunfire? How rugged must it be to take the whirling speed of a shell in flight?

These problems were faced by Sylvania research scientists and engineers in 1941. Faced and licked! For early in 1942, Sylvania was mass-producing tubes for the radio proximity fuze.

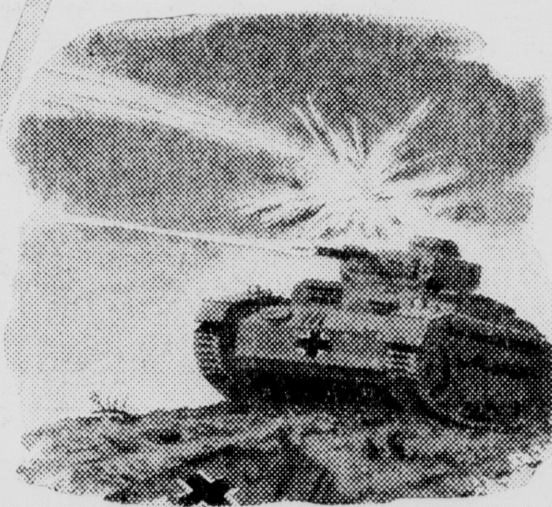

A million of these uniquely-designed electronic tubes were turned out every two and one-half days... over 140,000,000 during five war years. 95% of the entire usable production came from Sylvania. And during 1944-45, Sylvania was the only company manufacturing shell-exploding radio tubes for the Navy.

Making such exceptionally unusual tubes, in such vast quantities, in so short a time is a living testimonial to the skill and experience, devotion and loyalty of Sylvanians on the job. We are indeed proud of our thousands of people who, under strain of the most extreme secrecy and urgency, piled up such an astounding production record.

## HISTORY OF THE SYLVANIA SHELL-EXPLODING ELECTRONIC FUZES IN ACTION!

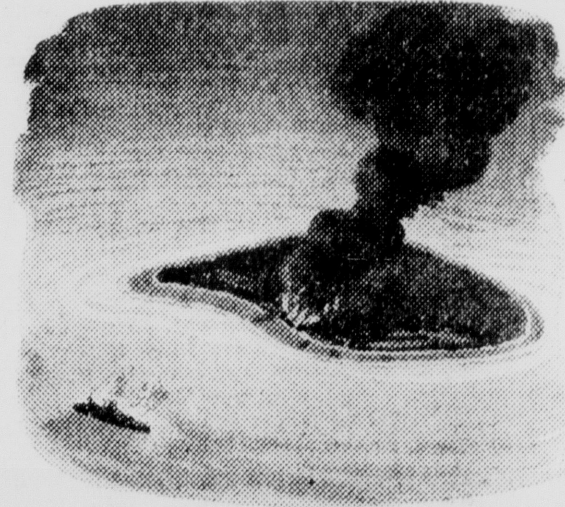

**ROBOT BOMBS**—Anti-aircraft battalions, supplied with radio proximity fuze-shells, blasted the effectiveness of German robot bomb attacks on England. On the last day of the now-famous sustained 80-day attack, only four of 104 robot bombs launched by the Nazis ever reached London. 16 fell into the sea, while anti-aircraft knocked out 68 of them. Our new secret weapon crushed Germany's last hope of victory.

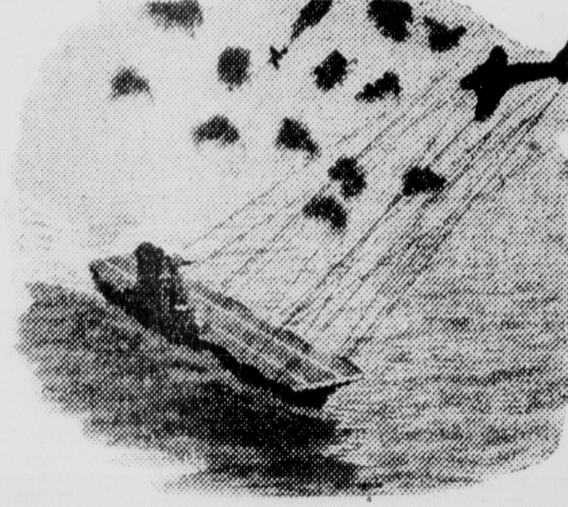

**BATTLE OF THE BULGE**—December, 1944. A bleak Christmas for Americans in Europe. Field Marshal von Rundstedt's armies had driven a tremendous wedge into Allied lines at Ardennes. As a counter measure, U.S. Ordnance threw radio proximity fuze-shells into battle. The tide turned. Our armies advanced once more. German prisoners agreed our artillery fire was the most destructive they'd ever faced.

**END OF THE LUFTWAFFE**—As part of the German's Ardennes counter-offensive, the then inactive Luftwaffe suddenly appeared in force. It disappeared with equal suddenness. German pilots had never encountered such devastating flak as came from our anti-aircraft batteries firing radio proximity fuze-amunition. In a matter of a few weeks, these new type shells destroyed over 1000 German planes.

**IE SHIMA**—Thanks to radio proximity fuze-amunition—a single battalion of American 90-mm guns was able to protect completely this vitally important little island in the Pacific against Japanese counter-attack... American units in the Philippines, on Guam, Okinawa and other Pacific battlefronts were able to knock out Jap lines of communication and supply dumps with comparative ease.

**KAMIKAZE**—As a last desperate measure to stop our advancing Army and Navy, the Japs turned to suicide planes. Most Kamikaze pilots joined their ancestors without completing their missions. Radio proximity fuze-shells blew up their explosive-laden craft before they reached their targets. The Jap high command admitted the total failure of Kamikaze, the Jap General in charge committed hara-kiri.

## Endocrine helps restore that youthful look to face and throat

Would you like the skin of your face, your throat, to grow younger looking again? If so, try ENDOCREME. ENDOCREME, with its 8-year record of success, is helping thousands to improve the very skin itself, not merely its superficial appearance. For thousands, it is doing this to a degree heretofore thought impossible. The secret of ENDOCREME'S success is ACTIVOL. This ACTIVOL is a scientific replacement for woman's own skin-vitalizing substance. Thus, when you apply ENDOCREME, it is absorbed by the skin and helps to restore normal growth of cells and tissues. Thus, ageing dry, coarse, lined skins tend to become fresher, firmer, smoother, more youthfully attractive. How better can you invest your cosmetic dollars? Many report marked improvement in only 30 days.

### Western Director Installs Officers Of Local Auxiliary

Chief Cornplanter Unit, No. 135, American Legion Auxiliary, held its annual meeting at the Legion Home Wednesday evening. Following the business session, presided over by the president, Mrs. Milton Witz, the yearly reports were given, showing a prosperous year and a membership of 276. Mrs. Merle Graham gave a resume of the organization since the charter was granted in 1921.

The meeting was then turned over to Mrs. R. W. Kennard, of Phillipsburg, western director, who installed newly elected officers as follows: President, Mrs. Witz; first vice president, Mrs. Howard Casey; second vice president, Mrs. Claude Hoyer; treasurer, Mrs. Theodore Fox; secretary, Mrs. Richard Hansen; recording secretary, Mrs. C. D. Cannon; historian, Mrs. Merle Graham; chaplain, Mrs. Margaret Rowland; sergeant at arms, Mrs. Henry Fleckenstein. Officers of the newly organized unit at Sugar Grove were installed at the time by Mrs. Kennard.

The new slate of the local unit was named to attend the Inter-county Council meeting to be held at Kane on October 27, and the chairman of committees as alternates.

Following the installation ceremony, Mrs. Kennard gave an inspiring address to both units, and was then presented with a gift from the Warren group.

At the close of the meeting, Mrs. Melvin Johnson presented the past president's pin to Mrs. Witz, who responded pleasantly with her thanks to the organization and a request for continued cooperation. Mrs. Witz and her committee members were then presented with a gift from the Warren group.

### Group Gathering Very Successful

(Special to Times-Mirror)

The annual group gathering of the American Union Sunday Schools of Starbuck, Yankee Bush and Pleasant was held in the Pleasant Grange Hall. It was the best attended of any such gathering in several years. Starbuck won the picture drawn by Rachel Gray for having the largest attendance.

After the various school had rendered their programs, the meeting was climaxed by the presence of Chief White Feather, who was introduced by Rev. Clarence Wessman, of Calvary Baptist church. Chief White Feather sang several beautiful hymns after which he told his life story, stating that after having tried many avenues of life in search of happiness and real satisfaction, it was finally found when he surrendered his life to Jesus Christ. This was brought about by his sister, when she placed a New Testament in his hand while ill in a hospital, proving again the authenticity of the Scriptures as recorded in John 8:32—"Ye shall know the truth, and the truth shall set you free."

In the absence of the Sunday school missionary, the meeting was dismissed by Rev. Ernest Kaebnick.

### Drama Promised For Sunday Play

Listeners are promised a half-hour of real suspense in the Sunday afternoon drama, Two Crooks and a Lady, from two o'clock until 2:30. This clever melodrama will be the fourth in the series sponsored by the Metzger-Wright Company and presented by members of the Warren Players.

Meredith Coe, one of the Warren Players most experienced members, plays the role of Mrs. Simms Vane, the wealthy old lady. Carl Johnson, remembered especially for his fine work last year in Our Town, is playing the role of Miller, the Hawk, a gentleman crook. Mary Schellhammer, a newcomer in the Players, is doing a convincing piece of work as Lucille, the maid crook. "The Inside" Georgia Spinney, who has been heard in previous radio plays, will be heard in the role of Miss Jones, the companion. Giulio Fino and John Erickson will be the two police officers. Giulio is also handling sound effects, which are very important in the production.

## Do you give yourself the care you give your car?

• The human body, like any other machine, needs care to keep it in perfect running order. What many people overlook is the fact that it needs liquid as well as food. (Your body is about 70% water).

Health authorities recommend at least six full glasses a day, preferably between meals. Water is the cheapest, purest, and most convenient liquid available. The cost of providing a family of four with six health-giving glasses of water a day is less than twenty-five cents a year! So cultivate the habit of drinking water for health.

**LACY SCHOOL UNIT**  
The October meeting of Lacy PTA was in charge of the president, Mrs. Virgil Kittner, and opened with group singing led by Miss Peterson. During the business session it was voted to get pins in the future for past presidents; also to sponsor a cub-pack for Lacy school. It was announced that Stury Club will meet again this year, with Mrs. V. J. Rohrer as leader. Mrs. I. Warner and Mrs. R. Dickerson, delegates to the PTA conference October 3, gave interesting reports.

Mrs. Ernest Huber, program chairman, then presented Calvin Olsen and Joan McDonald, who sang beautifully "I Had a Little Talk With the Lord" and "In the Garden". Rev. William Lane, of the Reformed church, presented a very challenging and inspirational message on "Workable Spiritual Forces." He stressed forcibly Love, Righteousness, Kindness, Loyalty, and Obedience, saying these qualities should not be taken lightly, as there is no compromising in the spiritual forces.

At the close of the program, refreshments were served by the home room mothers of Grade One. Miss Peterson's room won the attendance award for the largest number of parents present.

### FRED RALSTON JENNINGS (Contributed)

The village of Tidoute awoke last Friday a. m. to learn with the deepest regret and sorrow, that Fred R. Jennings had died in the night. For the host of his friends the village will not be the same since Fred left them, for all of the 72 years of his life had been spent in Tidoute, so that there was scarcely a man, woman or child in the village or vicinity that Fred did not know, and who knowing him—loved him.

He was a friend to every one and he lived under the "laws of kindness." By his gentle words, kindly humor and large charity, he left such a gracious memory that many a man hearing of Fred's death said "They don't come any finer than Fred Jennings."

Mr. Jennings was born in Tidoute, October 10th, 1873, so he had just passed his 72nd birthday by one day when he died. Besides keeping the Grocery and General Merchandise Store which attracted to it a large clientele by the upright character of its proprietor, Fred was also interested in oil leases and associated in the management of the local bank.

Business moving and commercial travelers knowing Mr. Jennings through a half century of close contact, gave it as their testimony that they did not know any man more fair, highminded and honorable than he. His outlook was ever one of good cheer, and when a year ago a heart condition made it imperative for him to be absent from the store for many months, his friends were delighted when finally he occasionally was able to go down to the store each day for a little while, sowing his seeds of kindness and friendliness once more.

The great number of people which attended the funeral, more than could be accommodated, witnessed to the esteem in which he was held. The funeral was held Monday, Oct. 15th from his home on Main street. Although it was requested that no flowers be sent, there were a great many hand-some tributes. The service was conducted by his friend, Dr. Prout, the minister of the Presbyterian church, who, in the service, read many passages of Scripture which were singularly appropriate to the character of Mr. Jennings—among them the 15th Psalm.

Interment was made in the Tidoute cemetery, with the following acting as bearers: Archie Passauer, Francis Byers, Homer Prather, Karl Johnson, John Stewart, Clifford Williams—honorary bearers Melvin Rosequist and Will Yeager.

Mr. Jennings is survived by his

Haul in Berlin Black Market Raid

Arrests by the truck-load resulted from sweeping raids on Berlin's Tiergarten in an effort to end black market trading. Suspects are pictured arriving at police headquarters, to be questioned because they were unable to explain their presence in the Tiergarten, or because they lacked proper identification. AIRPORT NEWS

Under the new revised Civil Air Regulations it is now possible to learn to fly and receive your Private Pilot's Certificate with greater ease and much less time spent on book study and ground school than has ever before been possible. A student may now learn to fly and receive his Private License with a minimum of 40 hours flying time. Thirty hours are solo and ten hours must be with an instructor. Five hours of this time is cross country. The written examinations have been cut down so that the applicant need only pass a test on Civil Air Regulations, and Air Traffic Rules. The examinations are issued by the Civil Aeronautics Administration and may be given by his or her instructor before they make their first solo cross country flight. This examination is very simple and when passed completes the applicant's qualifications and tests for a Private Certificate so far as written work is concerned, and is so entered on the student's Pilot Certificate by the instructor who gave the test.

The flight instructors duty first,

duplication of effort to end... for the agency to think in terms of the individual, and how best to help him help himself. Charity has stopped being a dole. Social workers today go farther, and try to correct the condition behind the appeal for assistance. Welfare work in Warren county can never be at its best until there is more understanding of the need as a whole by not only paid but also the amateur social worker or board member," said Nelson A. Johnson of the Council of Community Agencies.

This conference is being sponsored by the Warren County Council of Community Agencies and the Forest County Welfare Agencies. A complete program of the day's events will appear later.

BRACKENRIDGE WILL VOTE ON MOVIE ISSUE

Pittsburgh, Oct. 19.—(AP)—Common pleas court cleared the way yesterday for citizens of Brackenridge to vote Nov. 6 on the question of Sunday movies.

The admiral, taking a short furlough before completing his last assignment on active duty with the navy, arrived at the New Castle Army Air Base in a non-stop plane trip from Los Angeles.

Halsey was preceded to Wilmington by his naval aide Captain Harold F. Stassen, former governor of Minnesota, who made arrangements for the admiral's arrival.

WOMAN LOSES LIFE IN MONONGAHELA FIRE

Monongahela, Oct. 19.—(AP)—Fire swept three buildings on Second street in Monongahela today, causing the death of Mrs. Katherine Wulf, 45, who was trapped in a second floor apartment.

Neighbors said Mrs. Wulf might have suffered a heart attack and been suffocated after aiding her daughter through a window to the shoulders of a man who stood on the shoulders of another man.

A son, Vincent, 17, escaped by pressing a pillow against his face and running down the smoke-filled stairways.

NUMBERS RACKET IS RAIDED IN PITTSBURGH

Pittsburgh, Oct. 19.—(AP)—Police who had no faith in a "for rent" sign entered an apparently empty house in the hill district yesterday and disrupted what they said was a \$1,000,000-a-year "numbers" setup.

Officers seized \$1,988.33 in currency, four adding machines and thousands of numbers slips. They said the layout indicated a "take of about \$5,000 a day."

Two men running adding machines in the house were charged with running a lottery.

## Shaughnessy Saturday Spin . . . By Mun' and Frank Eck

### Expects Pitt Win Saturday

Pittsburgh, Oct. 19.—(AP)—The underdog Pitt Panthers could surprise a lot of people by beating Notre Dame tomorrow but their coach Clark Shaughnessy won't be one of them.

"Personally I don't think Notre Dame was a very superior team, the gray-haired pilot said. "I question whether Notre Dame is good enough to take our measure Saturday."

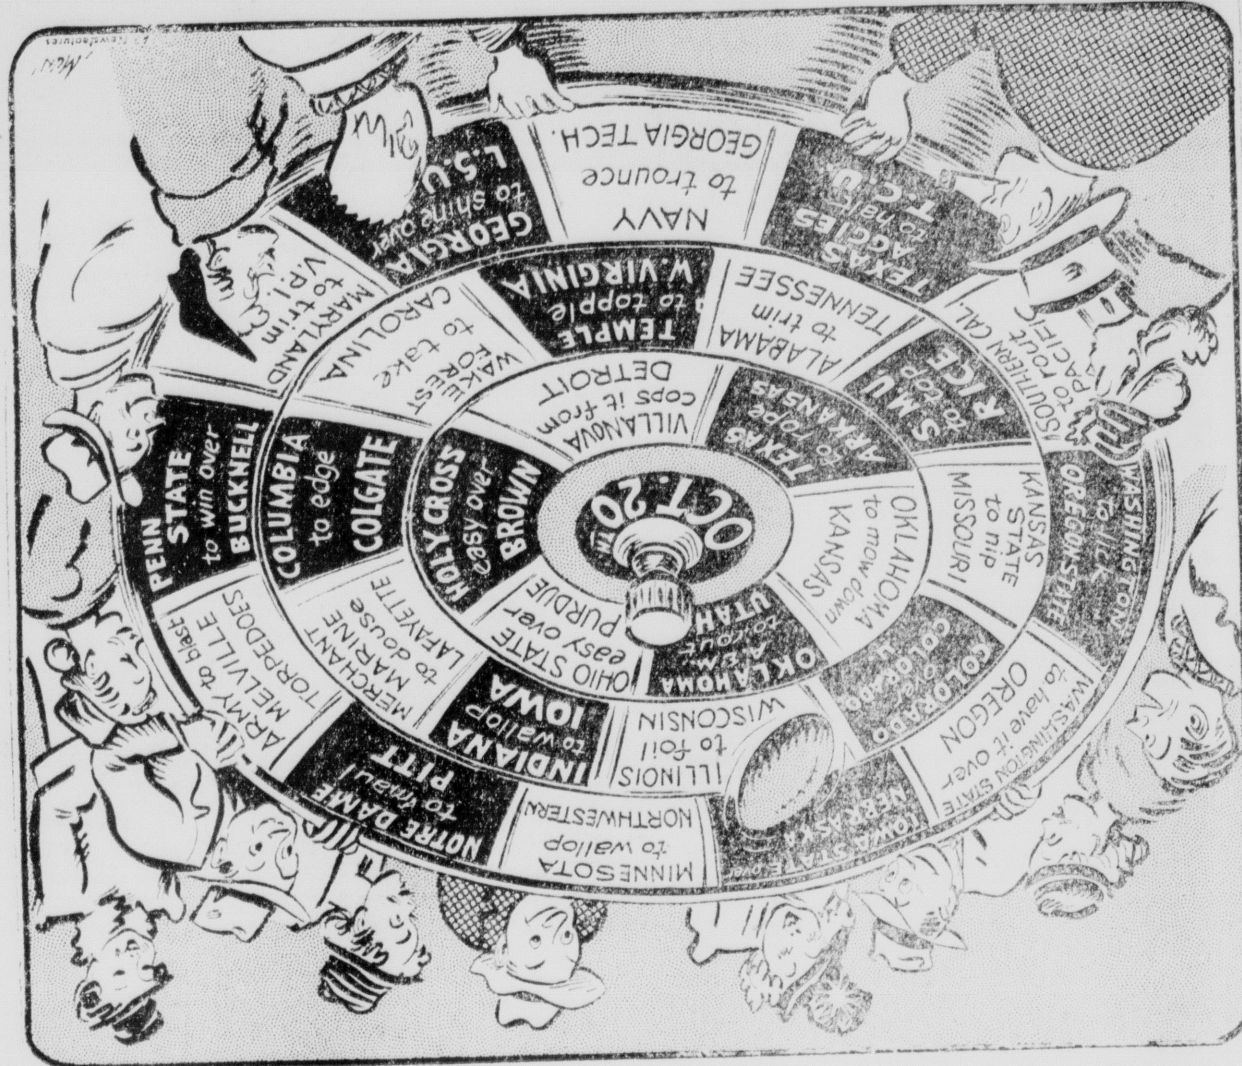

The Pitt mentor and his squad have been brewing special "T" for the Irish during the past three weeks, a fact Shaughnessy is inclined to blame for the Panthers' defeat by Michigan State last weekend.

"We just didn't play a good game against Michigan State," he admitted. "We didn't expect to play a good game. Our sights were on Notre Dame. But we did expect to win."

One reason Shaughnessy expects an improvement over the last two Notre Dame meetings which resulted in 41-0 and 38-0 scores are quarterback Jack Smolic and Bill Wolfe.

Pitt will be at full strength for the contest although left tackle Tony Chuffi has been absent all week due to the death of his grandmother in Rochester, Pa.

Notre Dame's squad of 36 players was to arrive here early this morning, a final tuneup practice was scheduled for this afternoon at Pitt Stadium.

## Evenly Matched Elevens Meet

### Eagles Invade At 2:30 P. M. on Russell Field: Sheffield At Locals Feel Loss of Gerardi 2:30 Tomorrow

Warren High's Dragon gridsters, recalling three consecutive football games that have demanded expanding the local abilities to the very limit, finished off a heavy practice session this afternoon at Beatty Field and prepared to wait for tomorrow's all-important Bradford Owl clash here on Russell Field at 2:30. This will be the last home game.

J. E. Leidig, giving no predictions as to the outcome of tomorrow's struggle, mentioned the loss of veteran letterman Bob Gerardi, the last-charging Dragon guard who was knocked out of action for the remainder of the year in last week's Jamestown thriller. As yet no definite substitute has been named, but it is probably that John Knapp, regular right tackle, will shift into Gerardi's left tackle position. Knapp's position will be filled by Joe Waller, who has been injured in the Titusville game, and John Robertson, who was injured in the Titusville game, will move into the guard spot left vacant by Waller. The remainder of the Dragon forward wall will remain the same.

Bradford will come here tomorrow boasting a fairly good 1945 record. Only once has the Pflug-coached eleven been forced to bow this year. The DuBois Beavers, 28-7 victors over the locals, walked the Owls in a rain-soaked field at DuBois, 20-7 but otherwise they are undefeated. The Owls

Warren	Pos.	Bradford
Hamilton	LE	Kornacki
Knapp	LT	Gigliotti
Robertson	LG	Marsh
Juliano	C	Fredericks
Waller	RG	Muto
White	RT	Katz
Bonace	QB	P. DiFonzo
Shanshala	LB	Ray
Lopez	RB	Phettersplace
Scalise	FB	Frankton

City, 6-6, downed Youngsville 23-3 and Kane, 27-7. Gerardi's loss may give the Owls a slight margin, however.

The Leidigmen now have a season record of four wins, three losses, and one tie. After opening the season with little veteran talent, mentor Leidig took what he had and developed them into what he terms "one of the most spirited teams I've ever coached." Up until the Titusville victory, the exception of the Academy game, the Dragons did not burst out but the 40-6 victory over Titusville's Rockets started the machine rolling, and it hasn't stopped since.

The Dragonmen have been impressive in every one of their last four engagements, especially in the 7-5 win over Jamestown. The line has proved to be a stumbling block for any opponent and the backfield has developed into a clever and unpredictable asset. Louie Bonace, the Dragon signal caller, can be expected to let loose with a barrage of aerials tomorrow, or he may concentrate entirely on ground maneuvers.

No changes have been made by Leidig in the Warren backfield. Frank Shanshala and Dave Lopez will operate at the halfback posts and letterman Jimmy Scalise will hold forth at his usual fullback position. Jack Hamilton and Don White will continue to patrol the ends; John Tannier, who turned in a wonderful performance at Jamestown, at the right guard.

Bradford will invade Russell Field with an unheard-of eleven. Just what Robert Pflug will send against the Dragons is a secret, but football followers can expect a game almost, if not equally, as thrilling as last Friday's affair.

## Expressmen to Restore Peace Time Service

With the removal of heavy pressure of urgent wartime traffic, the Railway Express Agency has inaugurated a broad effort throughout its nation-wide organization to restore pre-war standards of express service. It was announced today by R. Gilmore, local agent from Port Harbort, to V-J Day. The Government needs and production increased the use of express transportation, until at the end of the global conflict approximately seventy per cent of the traffic was allied to the war effort, he added.

"As a consequence," Mr. Gilmore said, "our service to civilian business and the general public was necessarily affected, due to conditions beyond our control, a situation which we always regretted but could not change. We are confident that we will soon be back to normal and be able to aid substantially in speeding up reconstruction and with it a long period of national prosperity."

Bag limit for wild turkeys in 30 counties of Pennsylvania in which they may be legally hunted in the Nov. 1-Nov. 30, 1945, season are one per hunter for the season. Wild turkeys cannot be hunted this year in Clarion, Forest, Jefferson, McKean, Snyder, Tioga and Warren counties where a closed season was ordered by the State Game Commission.

## Chapter 9

My been standing there for several minutes before Anne looked up from her typing and saw him. She didn't know why but his very presence annoyed her exceedingly. Perhaps it was only because she had been jumpy and irritable all day. It seemed that she had done nothing all week but wait for Wayne to come in or call her, and for the most part her waiting had been in vain. Now it was Friday and before long it would be Tuesday and Wayne would be gone! He insisted that they should be married on Saturday and spend the weekend at the little mountain hotel that Eve had so heartily recommended. She had asked him to wait a few more hours or that morning to shop for a wedding dress and other necessities. She had finally chosen a rose beige frock and hat which did not please her at all but was the best she could find in the short time at her disposal.

It seemed to her that anybody with half an eye could see that Mrs. McDowell was quite intent on carrying out her threat to prevent the marriage; but Wayne accepted each delay in good faith as if fate were behind it all and not his Aunt Edna! Now it was hours past the time when he had expected to take her to the wedding and she had had no word from him.

"Miss Winslow, I have a very great favor to ask of you—with Mr. Farham's permission, of course."

She looked up crossly at Major Lowell standing there by her desk. "Yes, Major?"

"It seems to me that I am allowed to borrow you for a short time!" His smile was rather engaging in his bronzed face. When on earth was he talking about "you see, my secretary is having a bout with the flu and there are some really urgent papers I must have prepared. Mr. Farham will be glad to do the needful for a while and that I might ask you to do them for me."

"But I can't—that is—" She was struggling to find the words to say that she was being married.

on the morrow and that as soon as her fiancée called she was going out to select her wedding ring, when the phone at her elbow rang. She picked it up quickly. Wayne's voice came to her, troubled and unhappy.

"I love you, Anne," he said simply.

She blushed and stammered over her answer. With Major Lowell at her very elbow all she could say was, "I know, Wayne."

"You're not angry, are you, darling?"

"No."

"You don't sound very—very glad to talk to me."

Desperately she said, "Wayne! I—I'm busy. I'll talk to you later—when you come to the office."

"That's just the trouble," he said wistfully. "Looks like I won't be able to make it until rather late this afternoon!"

"Oh, Wayne—again!"

She tried to keep the exasperation out of her voice. She wanted desperately to say, "Do you want to marry me or don't you? Do you want to please me, or do you?" Aunt Edna? Make up your mind, Wayne." But she couldn't quarrel with him over the office telephone. She couldn't quarrel with him anyway. So all she said now was, "It's all right, Wayne. Whenever you can make it—just—just drop in."

"I adore you!" His voice was lifting already. "Will you wait for me this afternoon if I'm a little late?"

She stood up and deliberately turned her back on Major Lowell. In a very low voice she said, "I'll always be waiting, Wayne—as long as you want me to."

WHEN she hung up the receiver and turned back again, Major Lowell was smiling at her sardonically. A look of bitterness lay across his eyes. "Maybe you're different," he said quietly, "but all girls don't wait."

"It's very impolite to listen in on a telephone conversation that doesn't concern you!" she retorted caustically.

"I'm amused. 'Impolite! Rude! But very interesting!'"

"You said something about some dictation?"

"Then you don't object?"

"No, of course not."

"Mr. Farham said I might be

his private office, rather than taking you home with me. Shall we go?"

He stepped aside to allow her to pass into the inner office, and she knew that he was limping rather badly today. Suddenly she wondered rather keenly about his injuries, but apparent bitterness and disillusionment made him have any chance belong to the "fraternity of suffering" of which the congressman had spoken, and in which Eve and so many others had found membership?

She found herself interested beyond expectation in the work he had for her to do. He was to do a series of radio broadcasts on the South Sea experiences as a basis for a later "code" he had outlined. "It's not at all important," he assured her more than once, "but it gives me something to do at the present, and I happen to have a friend who is a publisher."

"That's not true," she could not help saying. "You're recording experiences here that will be of lasting interest and benefit to men everywhere. Why do you make light of it?"

"Thousands of other men have had the same experiences."

"But not your facility of expression, perhaps."

He laughed in such a way that it brought no merriment to his face. "You're not by chance trying to help me build up a belief in myself?"

She was surprised at her own vehemence when she said, "Please don't talk like that!"

"Why not?"

"It's not right for anyone to be so bitter."

"So you still believe in dreams—other than nightmares. I mean, Lowell, how far has it come to you to disturb them. Shall we get on with the work?"

A short time later the telephone shrilled at his elbow. Major Lowell spoke into the instrument, waited, expressed regret, hung up.

"That was Mr. Farham," he said. "He wanted me to tell you that he wouldn't be back into the office this afternoon. Also he said 'Tell Miss Winslow not to wait for Wayne. Mrs. McDowell has had a rather serious heart attack!'"

## Which will be the bird of Peace?

It has been several months now since the fighting stopped in Europe. But few men have seen the legendary dove that was to herald the end of the war.

Instead, too many of the people of France, of the Netherlands, of Belgium and Poland and Greece, have been more familiar with the vulture.

For how can peace be glorious to those still ravaged by disease and hunger, who lack fuel for their roofless homes, and blankets and medicines for their children?

We on this side of the ocean have a tremendous stake in whether peace returns to the cities and fields of Europe. If war is to be followed by despair and violence, by uprisings and anarchy, instead of by hope and rebuilding, we, and all other nations, must suffer. And now, of all times, in our own interest, we must help.

Much is being done by our own and allied governments. But much that governments cannot do is needed. There are human services, desperately in demand, that only private agencies can provide. And there are, as yet, almost no European charities at work.

So, when you support the Allied Relief Agencies through a part of your gift to the Community War Fund, you are doing more than expressing comradeship to our friends who suffered most from war's destruction.

You are helping the cause of peace in a way that may be more effective than all the treaties. For you are helping to restore faith in the decency of man. And without that faith neither our allies nor we can have much hope of a world of co-operation.

You give only once a year to all the great causes combined in your Community War Fund, which, in turn, supports all the 21 agencies of the National War Fund. You give only once; you write only one check. This year, make it bigger than ever.

## WASHINGTON DAYBOOK

by Jack Stinnett

WASHINGTON—Incidental information:

The stranger-than-fiction stories of this global war still will be turning up a decade from now—stories like the one the Netherlands Information Bureau here came across recently.

It's about the American in a Japanese prison camp in Java who built a radio receiving set in the hollow of his wooden leg.

Gaylord A. Buchanan, Claysville, Pa., lost his leg in his third year at the U. S. Naval Academy at Annapolis but was permitted to complete his course. An engineer for the Sperry Gyroscope Co., Buchanan was captured and interned in Java as the Japanese spread south. With two tiny acorn tubes another prisoner had salvaged, parts from a wrecked set found in the camp, a charcoal fire and bits of copper, Buchanan built the set into a small aluminum cup and fitted the cup into a recess hollowed out of his wooden leg.

A rectifier was built into a battered and discarded Dutch canteen and an aerial was made of wire supporting mosquito netting over one of the cots. With that the prisoners kept in touch with the outside world—until the tubes blew out.

A second set was constructed by Buchanan and Lt. Louis Emil Biechlin, USN, South Akron, O., but was too large for Buchanan's leg and finally was built into a pair of bath clogs with thick wooden soles over which the ingenious prisoners tacked strips of crepe rubber. Although Japanese guards watched and examined the prisoners constantly, the sets never were discovered.

THERE have been some complaints lately that WACs and War Department civilian employees are being used to answer congressmen's mail, although why this should be considered scandalous under the circumstances is a mystery.

In the Adjutant General's department, a staff of more than 100 has been assigned to answer letters to congressmen about demobilization. The congressmen send their queries over to the office and get back letters for them to sign and send out.

Who is better qualified to answer demobilization questions than War Department experts? And aren't they working for the taxpayers just like members of congress? If there's any little white fraud in a congressman sending these letters out over his own signature, it's the same any business man employs when he has a secretary answer letters he only signs.

TALL, gangling Earl of Halifax, back in this country as British ambassador, has the best one-line answer I have heard to questions about why the Churchill government was thrown out of office. After protesting that the vote that brought in the Labor government wasn't in any sense a personal repudiation of Winston Churchill, Lord Halifax says simply: "In our country, we vote for a party, not a man."

HAS anybody pointed out that the three B-29s which flew from Tokyo to demonstrate how suicide bombers could have struck at United States cities followed almost the identical route flown by the Japanese "goodwill mission" in August, 1939?

In that month and year the "Nippon" a Mitsubishi twin-engine transport, owned ostensibly by the publishers of two large Japanese newspapers, and flown ostensibly by civilian pilots, followed virtually the same route as far as Whitehorse, Canada, and then swung south. Could they have been trying to prove the same thing six years ago?

Bag limits for quail in the Nov. 1-Nov. 30, 1945, Pennsylvania hunting season are four for the day and 12 for the season.

spent the weekend with her mother Mrs. Edna Benner.

Mr. and Mrs. Charles Grettenberger spent Sunday with their daughter Mrs. Rex Bieckarch of Warren.

Miss Grace McCormick left for Buffalo Monday after spending the week end with her aunt and uncle Mr. and Mrs. Sheldon Day. She was accompanied as far as Warren by Mrs. Florence anzhizer.

Miss Martha Jennings and Mrs. H. J. Jennings returned home after spending several months at Ardmore, Pa.

Communist Leaders Ask Socialists to Join In United Front Against Shidehara Regime

### MORE HIDDEN WEALTH

Tokyo, Oct. 19.—(AP)—Japanese Communist leaders asked the Socialist party today to join in a united front against the Shidehara government, which they said "has no ability to cope with the present situation."

The Socialists did not reply immediately. Further talks between the groups were set for tomorrow, but the National Federation of Toilers, a workers' organization strongly denounced the Communist suggestion at the first Toilers' mass meeting since the surrender.

Meanwhile, Foreign Minister Shigeru Yoshida told his first press conference the chief task of Premier Kijuro Shidehara's cabinet was to carry out terms of the Potsdam conference as smoothly and rapidly as possible "to demonstrate our good faith through deeds."

Communist leaders Yoshie Shiga, Shigeo Kaniyama and Ichizo Matsunoto called at the office of the Japan Socialist party and formally asked the party to join in opposing the cabinet.

The Communists and the Socialists once were bitter political foes but Shiga expressed belief that the groups could cooperate in a "united single trade union."

The Toilers drew a capacity audience at their first mass meeting.

Yoshida, veteran Japanese statesman who once was mentioned prominently as a possible successor to resigned Premier Prince Higashikuni, told his first foreign press conference he had no plans for the foreign ministry.

"Japan at the present moment is a defeated nation and has no diplomacy," he said. "Our chief task is to carry out terms of the Potsdam declaration smoothly and rapidly as possible."

He defended the Zaibatsu, wealth-controlling industrial families of Japan whose holding companies recently announced plans to offer shares of stock for sale to the public, as the people who brought "prosperity" to Japan in peace time.

Allied headquarters, which has been recovering hidden wealth in gold, silver and precious gems from Japanese chicken coops, barns and thermos jugs, froze the (Turn to Page Thirteen)

Tokyo, Oct. 19.—(AP)—Col. Roger O. Egeberg, General MacArthur's personal physician, is flying home to Cleveland for discharge, leaving his chief "in perfect physical condition," headquarters reported today.

Colonel Egeberg, who has made the long, fighting trip from Australia to Tokyo with MacArthur, is expected to visit his home before proceeding to a separation center to shed his silver eagles.

MacArthur's headquarters spokesman reported the general "has never been more fit than at present, in the entire four years of the campaign."

The spokesman acknowledged that a New York gossip columnist whom he did not identify had forecast MacArthur's retirement because of "serious heart disturbances," and snapped:

"There is not the slightest word of truth in such gossip."

## BUSINESS INDEX IN DISTRICT IS DOWN

Pittsburgh, Oct. 19.—(AP)—Business in the Pittsburgh district shot down 14 points in the last week, largely due to the coal strike, the Bureau of Business Research of the University of Pittsburgh said today.

The rating for the area on the bureau's chart at the end of the week was 131.7 per cent of the 1935-39 average. However, department store sales for the four weeks ended Oct. 13 were 14.9 per cent above those of the comparable period in 1944.

## Brothers Have Odd Reunion In Service

Fort Douglas, Utah, Oct. 19.—(P)—Three Montana brothers had a brief reunion at Fort Douglas today—One was processed out of the army, another was inducted into military service and the third did the checking.

## No Reduction On Luxuries In Prospect

Washington, Oct. 19.—(P)—Prospects dimmed today for a tax reduction next July 1 on such things as whisky, fur coats and jewelry.

Heavy opposition developed within the senate finance committee against cutting back the special excise levies on that date to their prewar levels, as voted by the house in the pending tax reduction bill.

Experts estimate the half-year revenue loss from such a reduction at \$555,000,000.

Other tax cuts already approved by the committee aggregate \$4,780,000,000, and Chairman George (D-Ga.) is trying to hold the total slash to the \$5,000,000,000 limit recommended by Secretary of the Treasury Fred M. Vinson.

Motions have been made to delay the excise reductions until Jan. 1, 1947, or even until the following July 1.

When and if the excise taxes go back to their pre-war levels, there are some samples of the rate changes: Furs, jewelry, cosmetics and luggage, from 20 per cent of retail price to 10 per cent; liquor from \$9 a gallon to \$6; beer from \$8 a barrel to \$7; electric light bulbs from 20 per cent to 15; long distance telephone calls from 20 per cent to 10; railroad ticket tax from 15 per cent to 10.

The senators have approved reductions totalling \$2,085,000,000 for individual income taxpayers, \$2,555,000,000 for corporations and \$140,000,000 for automobile and boat owners through repeal of the \$5 annual use tax next July 1.

## DESPONDENCY LEADS TO ERIE CO. SUICIDE

Erie, Oct. 19.—(AP)—Police Lt. George Wochner said Clair Allen, 30, of Waterford R. D. 7, fired a fatal bullet into his breast yesterday, a few minutes after his estranged wife, Reva, rejected his plea for reconciliation.

They met at the gatehouse of Talon, Inc. Reva walked away, leaving Clair sitting in the car. She heard a shot. When she reached the car, her husband was dying.

## Leaders in State Charity To Be Heard at Penn. Welfare Conference Here October 26

Top-ranking leaders in state charity will speak at the Pennsylvania Welfare conference for Warren and Forest counties at the YWCA activities building next Friday, October 26. This, the first welfare conference ever to be held in Warren, opens at 10:30 a. m., closing around 4:30. The public is invited.

The Hon. Robert S. Wray, acting secretary of Pennsylvania's Department of Public Assistance, will address the group at 2:15 on "The Aims of Pennsylvania Welfare Now—in the County; in the State."

Mr. Wray, a member of Governor Martin's cabinet, has consented to speak here Friday because he knows of the great need for keeping not only the professional workers, but lay members of their boards and the public in general acquainted with Pennsylvania's great welfare program.

The honorable John C. O'Neill, president of the state organization of the Pennsylvania Welfare Conference, speaks following Mr. Wray. He has chosen "What the Pennsylvania Welfare Conference Can Do for Our Children" as the subject he will discuss.

Formerly a county commissioner from Washington county, Mr. O'Neill has a background of long experience. At the close of the afternoon, speakers there will be a discussion period.

Mrs. Mary T. Denman, field representative of the Public Charities Association in Pittsburgh, and a lawyer as well, will discuss "What are Pennsylvania Legislators Doing for Our Children?" Mrs. Denman, speaker of the morning session has been judged by those who have heard her as a brilliant and charming speaker.

The Honorable Allison D. Wade, President Judge of Warren and Forest counties has been selected as the luncheon speaker. He will talk on "The Problems Your Child Must Meet." The program committee, headed by Mrs. Albert Rockwell, has spent weeks planning this conference. It is hoped that this Warren's first get-together of those interested in social betterment, will be something long to be remembered.

This will be the first opportunity many of the men and women on our local boards will have had to get a picture of public assistance work in the county and state, and to hear, direct from state leaders in just what ways all social agency groups may live up to modern standards.

"There has long been a need for closer cooperation among our social agencies." It is time for the (Turn to Page Nine)

## Peron Again Is In Power In Argentina

By LAURANCE F. STUNTZ  
Buenos Aires, Oct. 19.—(AP)—Col. Juan Domingo Peron will be permitted by the army to run for president next April 7, a reliable source reported today as a stunned populace dazedly accepted his swift return to power.

But the army, patently the power behind Peron and President Edelmiro Farrell, was reported to have stipulated further that the government must remain impartial in the elections, giving no direct aid to Peron.

This source said the army, represented by the powerful Campo de Mayo garrison, had laid down conditions for Peron's return from custody to the dominating position in Argentina's violent politics.

As for Gen. Eduardo Avalos, leader of the Oct. 9 movement, who had taken Peron's post of war minister, one report said he had patched up his difference with the strong man after quitting the war ministry.

Midnight brought an official end to the 24-hour general strike which had paralyzed the capital and left it in the hands of marching demonstrators—many of them youngsters below voting age who professed allegiance to Peron because their apprentice schools had been formed by him.

Monterey, Calif., Oct. 19.—(AP)—A big, silver B-17 from Honolulu "buzzed" a Carmel home here and then landed at the Monterey airport.

Out stepped a plain, tall, gangly man wearing a battered campaign hat. Gen. Joseph Stilwell was back from the wars just in time to spend his 35th wedding anniversary with his family.

The commander of the 10th Army on Okinawa was met by his wife and three daughters. He had ordered the plane to take off from Hawaii, despite threatening weather, because he wanted to reach his Carmel home for the anniversary.

## REVOLUTION IS SPREADING IN VENEZUELA

United States Embassy Officer at Caracas Fired On in Course of Increasing Revolt

### REBELS GAIN ACADEMY

Washington, Oct. 19.—(AP)—A United States embassy officer at Caracas was fired on last night in the course of spreading revolution in Venezuela.

The conflict is between rebel military and government forces. The incident involving the embassy official was disclosed by the state department today in making public dispatches from Ambassador Frank P. Corrigan on the revolt.

The upheaval according to these official reports, began at 10 p. m. yesterday at San Carlos barracks near Caracas and by residents of Miraflores and the nearby military academy.

Meanwhile, government forces under the leadership of President General Isiah Medina Y Angarita who has taken personal command, have captured the San Carlos barracks.

Heavy firing was reported this morning shortly after midnight, according to a dispatch which indicated that the shooting took place at Caracas.

At the town of Maracay, about 30 miles east of the capital, it was reported that there was heavy fighting and that the rebels had some motorized equipment at their disposal.

The state department's cables from Ambassador Corrigan were, at least in some instances, timed at 9 p. m. yesterday, Venezuelan time, but were not filed until daybreak today.

Inquiry disclosed that cable communication between the embassy at Caracas and the state department was interrupted during the night.

Indications were that there is some confusion in Caracas, at least, and that this condition may extend to other parts of the country. The limits of the revolt, therefore, could not be precisely determined today.

Not were there authoritative data here on the issues involved. One official said that the fighting has nothing to do with the Argentine situation as far as is known in Washington.

## Peiping Scene Of Outbreak Of Violence

By SPENCER DAVIS  
Peiping, Oct. 17.—(Delayed)—A crowd of Chinese attacked Japanese civilians in the little Tokyo district of Peiping last night in the first outbreak of violence here since the surrender of the Nippon forces.

Three deaths were reported. Other Japanese were beaten and stoned.

The outbreak followed similar disturbances at Tientsin, where homes were entered and several hundred Japanese were beaten four days ago.

Local police re-established order quickly in Peiping and there were no recurrences. The Japanese were warned to stay in their quarters and streets normally crowded with both civilians and soldiers of Nippon were nearly deserted.

More than 50 Chinese troops and an American crew were killed today when a troopship bringing Chinese government soldiers into the north China occupation zone crashed in attempting to land at Peiping's Nanyuan airfield.

The assassination yesterday of the president of Korea's chamber of commerce at Tientsin was reported today. There were no details.

Meanwhile, under an accelerated schedule, 29 American-piloted troopships were arriving here today with Chinese government troops for the occupation.

Just before the arrivals, Nanyuan was the scene of another surrender ceremony.

## WOODSMEN NEEDED

Harrisburg, Oct. 19.—(P)—Florian J. Boland, state director of the U. S. Employment Service, said he planned to open a drive on Nov. 1 to obtain 5,000 men "urgently needed" in Pennsylvania's lumber mills. He said men are needed in a wide variety of skilled occupations, but added that men lacking in woods or mill experience would be acceptable if they meet physical requirements.

## Federal and Michigan State Officials Move To End Strike Interrupting Power Service

By the Associated Press

Federal and Michigan state officials moved today to end a strike of 2,000 CIO Utility Workers as emergency crews stayed on the job to maintain electric service to some 2,000,000 consumers.

John W. Gibson, special assistant to Secretary of Labor Schwelb, was en route to a meeting in Lansing, called by Governor Harry F. Kelly in efforts to settle the walkout. Union leaders were to attend, but it was not known immediately whether representatives of the Consumers Power Company would be present.

Foremen of the struck Consumers Power Company, which services scores of communities in heavily industrialized lower Michigan, joined with non-strikers in staying in plants and sub-stations. The situation was described as "normal" by company spokesmen, but union leaders said it appeared unlikely the emergency crews would continue to maintain regular service. Detroit was not effected by the walkout, which started Thursday after breakdown of negotiations for wage increases.

Governor Kelly, who Thursday ordered 6,000 state troops and 400 state police to be ready for emergencies, said today that if necessary he would call upon "state facilities" to continue company operations. The workers, members of the CIO Michigan Utility Workers Council, are seeking a 30 cents an hour wage increase.

Meanwhile, across the country new and continuing labor disputes kept about 457,000 workers idle, including the 216,000 soft coal miners in six states who have until Monday to obey back-to-work orders from John L. Lewis, United Mine Workers president. Some of the miners, however, went back to the pits yesterday.

One of the country's major stoppages, the walkout of 35,000 AFL Longshoremen in New York harbor, was ended after 18 days, but still smoldering was the bitter fight between an insurgent group and union president Joseph P. Ryan.

In Washington, the house military committee prepared to take the first move toward new anti-strike legislation. A final hearing on repeal of the Smith-Connally War Labor Disputes Act was scheduled.

In Hollywood, the AFL Screen Actors Guild urged "immediate termination" of the AFL movie workers strike, in progress since last March over a jurisdictional dispute. Producer and union representatives continued efforts to settle the controversy, which affects from 3,000 to 7,000 workers. Picketing continued at studio gates.

CIO textile workers in Washington reported that 5,500 CIO workers were on strike at 11 plants in North and South Carolina and in Texas.

## HUSBAND QUESTIONED IN DETROIT MYSTERY

Pontiac, Mich., Oct. 19.—(P)—Police today resumed questioning of Louis V. Thompson, Detroit auto dealer, and his secretary, Mrs. Helen Budnik, in another effort to uncover a vital clue in the slaying of his wife, Mrs. Lydia Thompson of Detroit.

Oakland County Sheriff Edward K. Thomas said, "We just want to go over their entire stories once more to see if we can't get a definite lead. They've both been most cooperative and seem to be doing all possible to help us solve this case."

Thomas disclosed that two Detroit witnesses, sought for questioning had been apprehended and were released today after being interviewed at the sheriff's office.

## Bituminous Miners Returning to Pits

Pittsburgh, Oct. 19.—(P)—Work was resumed today at more than 50 of the 1,000-odd bituminous mines made idle by the great strike of mine bosses seeking recognition of their union.

Thousands of miners returned to their jobs.

There was every indication that by Sunday, the day set by UMW President John L. Lewis in his "back-to-work" call, the great majority of 216,000 strikers would have re-entered the pits.

The steel industry, still crippled by the coal shortage, will continue curtailed operations until more fuel is available. It was hoped that full production could be resumed in 10 days or two weeks.

John McAlpine, president of the United Clerical, Technical and Supervisory Employees of the mining industry, the striking affiliate, said he joined in the Lewis back-to-work order.

## SIX ERIE PEOPLE ILL OF PTOMAINE POISON

Erie, Oct. 19.—(P)—Six persons were recovering from ptomaine poisoning today at Eramot hospital.

Dr. E. L. Armstrong, hospital pathologist, said all of them reported they became ill after eating chicken salad sandwiches at a local restaurant.

The victims were: Miss Evelyn Leonard, secretary of Mayor Charles R. Barbour; Kathleen Holmes, 17; Mrs. Edna Oliver; her daughter, Georgie; Mrs. Priscilla Forbeck, and Virginia Thomas.

## DEFENDANTS HAVE 30 DAYS TO GET READY

Maj. Anthony Neave, British Lawyer, Gives Copies of Accusations to Men In Cells

### RIGHTS ARE EXPLAINED

By GEORGE TUCKER

Nuernberg, Oct. 19.—(P)—The world's first great war criminals trial of 24 high Nazis and German militarists and industrialists will begin in Nuernberg on November 20, the International Military Tribunal announced today.

The date for the beginning of the proceedings to establish responsibility for the second World War and its cruelties was set by the tribunal shortly after the massive indictments presented to the court yesterday at its first sitting in Berlin had been served on 23 of the defendants here in the Nuernberg jail.

The 24th defendant, Martin Bormann, apparently still is at large and probably will be tried in absentia.

The indictments were served on the defendants—politicians, militarists, industrialists and other functionaries in Hitler's Nazi regime—at 2:15 p. m. (8:15 a. m. Eastern Standard Time).

Maj. Anthony Neave, a British lawyer, gave copies of the 24,000-word accusation to the men in their carefully guarded cells. He explained all exactly what their rights were.

Neave, in his military career, was captured by the Germans in the British retreat from Dunkerque. He escaped from a German prison camp in 1944.

The indictments were served on Hermann Goering, Rudolf Hess, Joachim von Ribbentrop, Robert Ley, Wilhelm Keitel, Ernst Kaltenbrunn, Alfred Rosenberg, Hans Frank, Wilhelm Frick, Julius Streicher, Walther Funk, Hjalmar Schacht, Gustav Krupp von Bohlen und Halbach, Karl Doenitz, Erich Raeder, Baldur von Schirach, Fritz Sauckel, Alfred Jodl, Franz von Papen, Arthur Seyss-Inquart, Albert Speer, Constantin von Neurath and Hans Fritzsche.

The formal indictment was presented yesterday in Berlin to the court which will try this greatest war crimes case in history. Judges and prosecutors of the United States, Russia, Great Britain and France participated.

The defendants have 30 days in which to prepare their defenses. The survivors of Hitler's regime, which sought at the cost estimated at 10,000,000 lives to dominate (Turn to Page Nine)

## Five Workmen Die In Furnace Pit

Bethlehem, Oct. 19.—(P)—A gas leak in the furnace pit of the Bethlehem Steel Company's Lehigh plant brought death to five men yesterday while four others, overcome by fumes, are in serious condition at St. Luke's hospital here.

The dead, identified by company officials, were Harold Snyder, Fountain Hills; Edward H. Rasely, Phillipsburg, N. J.; and Joseph A. Coudrick, George Schneider and Michael Strako, all of Bethlehem.

Dr. D. H. Basciani, Northampton county coroner, said the men went into the pit to repair a leaking gas main.

Plant spokesmen said 20 other persons were treated at the company dispensary after entering the gas-filled pit to pull out the trapped workmen and the bodies of the five victims.

The 1945 County War Fund Drive is past the midway mark! At the First Report Meeting Wednesday evening, results of two days' work—Tuesday and Wednesday—were chalked up.

At tonight's Second Report Meeting the results of two more days—Thursday and Friday—will go up on the blackboard.

It follows that, when the opening gong strike tonight at 7:30—the big brass bell with "Lions" engraved on it, which Ed. Johnson strikes with such an authoritative clangor—the big drive will be more than half over; four-sevenths over, to be exact.

It also means that, if results are keeping pace with the expired time, we ought to show a grand total tonight of 4.7 times \$88,700, or—let's see, we never were very good on cerebral arithmetic—\$416,390. We ought to show a total of around \$50,686. That right, eh?

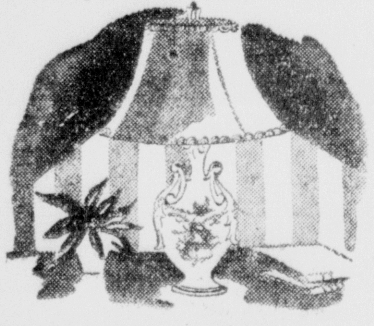

The question is: WILL we show that total?

Well, it's Friday morning now—ten a. m., and just nine hours and a half before the portentous bell rings tonight at the YWCA—and we see nothing to do but hold our breaths for nine and a half hours, and violently hope for the best. AND—urge every single worker to be there—to be there promptly—and to be there with a big report!

After the close of tonight's meeting, remember, only three days will remain—two if you rule out Sunday—until the Final Report Meeting Monday.

## Y's Men Hold Meeting and Discussion

Development of a fall program was the principle topic of discussion at the weekly dinner meeting of the Y's Men's Club held at the Y. M. C. A. Thursday. Several ideas were advanced and delegated to committees for further study.

Chairman Felix Mira, stressing the importance of a sound membership program, welcomed Roy Juusola and Robert Kupper, new members to the club.

## Payroll Division for Bond Drive Swings Into Action

Every person who attended Thursday night's meeting for the Payroll Deduction Division of the 8th Victory Loan Campaign left convinced that no person with cash savings or a job has a valid reason for not buying more bonds. Our Armed Forces finished their job so we at home can live in peace and comfort—but we have not finished ours. We still have an obligation to bring the boys home, to give medical aid to those injured for us, and to take a place for them in a prosperous America.

is over. And the need is great. Fortunately, Americans have the money. Since Pearl Harbor the public has saved one hundred billion dollars and still has an excess in cash of over forty billions. They are now being asked to invest eleven billion in the safest bonds in the world.

The meeting concluded with the showing of two motion pictures by Gene Reiley, Pennsylvania State Director of the Payroll Savings Division. The first picture explained how the Sun Oil Company has made their payroll deduction plan one of the country's most successful. The second, "Diary of a Sergeant," told so vividly the story of one wounded soldier's fight to overcome his physical handicaps that it was minutes after the lights went on before anyone spoke. This picture showed more than any words ever written why all of us must buy bonds—why we are going to finish the job!

### TURKEYS PLENTIFUL

H. M. Sanders, of Sugar Grove spent some time in the city today. He is one of the large turkey raisers of the county and this morning expressed the opinion that turkeys will be plentiful for the holiday season. "The cost of feed however has been high this year," according to Mr. Sanders. Several other turkey raisers of the county also report large flocks. Many of the birds are now being sold in Warren markets and the price is about 50 cents the pound in most places.

An old sheet spread over the floor around the sewing table will catch threads and ravelings and make picking up easier.

from which we sent them. Warren County is not going to fail. We will finish our job in this final campaign. We will meet our quota—and more!

After introductory remarks by N. D. Patterson, H. W. Conarro called on all local plants to send in their quota sheets and orders for the supplies they will need. This must be done at once if the Payroll Division is to meet its quota of \$300,000. Many local plants have failed to do this and time is short. In a little more than a week the drive begins. Its success depends on teamwork.

Following Mr. Conarro's request for prompt cooperation from Warren Industry, Don Brockett, Deputy Manager of the Pittsburgh Payroll Division, explained why money is needed now that the war

**THESE SHALL PREVAIL**

John Rossman's apt invocation of Lincoln's second inaugural address at the first report meeting of the Warren County War Fund 1945 drive was a source of stimulating thought to all workers present. The famous speech delivered in March, 1865, not long before the president's death, proved, as do many of the utterances of great and wise men, as full of meaning today as it did in that tragic year.

It brought to our mind a poem we remembered seeing once in an anthology. We hunted it up and, after much searching, found it. Here it is:

**"THESE SHALL PREVAIL"**

War laid bugle to his lips, blew one blast—and then  
The seas answered him with ships, the earth with men.  
Straight, Death caught his sickle up, called his reapers grim,  
Famine with his empty cup came after him.

Down the stairs of Paradise hastened angels three,  
Pity, and Self-Sacrifice, and Charity.

Where the curved, black sickles sweep, where pale Famine clings,  
Where gaunt women watch and weep, come these of wings.

When the red wrath perisheth, when the dulled swords fall,  
These three who have walked with Death—these shall prevail.

Hell bade all its millions rise; Paradise sends three:  
Pity, and self-Sacrifice, and Charity.

—Theodosia Garrison.

"Pity, Self-Sacrifice, and Charity." These are the noblest motives of mankind. They are all that is represented by Christianity. They are all that is opposed to war, conquest, human destruction. They animated Lincoln at the close of our tragic Civil War. They must animate Americans today not only if the War Fund campaign is to succeed but if the civilized world is to survive at all. The answer rests with every American and every Warren countian.

"These shall prevail"—or shall they?

**THE WRONG APPROACH**

"We just wanted to subscribe to these scripts the same way we'd subscribe to a newspaper or periodical," a member of the House Un-American Activities Committee is quoted as saying in explanation of the committee's request for transcripts of broadcasts by six prominent radio commentators.

One wonders, however, if the committee would have publicized its subscription to a newspaper or periodical. One wonders, too, if in spite of the committee member's disavowal that these requests were subpoenas, the commentators in question have not already been placed under suspicion by the publicity attendant upon this routine subscription."

No charge has been placed against the six broadcasters. But their scripts have been singled out for examination to determine whether they reflect any "subversive activity."

Somehow this seems the wrong approach in a country where a free press and free expression are basic rights. It smacks too much of damning innuendo and a desire to practice the intimidation which has been all too familiar in some other countries in recent years.

**HOW MUCH LONGER?**

During the end of this month and the beginning of next, the National Labor Relations Board is scheduled to conduct 42 strike votes, involving some 600,000 workers, in the Detroit area alone.

We don't know the precise sum that this performance will cost the tax-paying public, although it will run into many thousands of dollars. But certainly everyone knows that it is a senseless and useless expense, perpetuated under the wartime Smith-Connally Act which Congress has not yet seen fit to repeal.

It has been clear for the last two years that this act did not prevent strikes. Directed primarily against John L. Lewis, it was promptly requisitioned as a weapon by the canny mine workers' leader. Yet, with the war over, the government is still balloting workers to find out if they want to go through with a strike that would hamper the "war effort." And it's still costing the public money.

**THE HIGH ART OF PRAISE**

Considering that praise, when all's said and done, is the one thing for which every human being works and lives, isn't it surprising that more of it isn't used in everyday life? asks Ross Byron in Your Life.

When you honestly praise a man you give him a better opinion of himself, and also of you, because he likes anyone who sees enough merit in him to praise him.

Do not be afraid to use praise, if you can sincerely praise someone, because you will be using one force which will help you and others to experience more satisfaction and achieve more success.

**Who Made The Airplanes?**

IF THE Axis didn't know what hit them it was because the warplane may have come from one of two or three plants other than that of the designer. Under a great pooling operation, the last inch of American aircraft production capacity was utilized, as the chart above will show. In addition to the picture of mutual effort the chart gives, components of aircraft produced by one company were built in other aircraft factories, some of which abandoned their own models to devote their entire effort to building only sections of warplanes. And sometimes a part developed for one plane was adapted to another; a North American landing gear went into the Northrop P-61 Black Widow, for example. The exchange of technical information ended with the war, however, and the councils for pooling efforts now are being dissolved.

THE STORY OF AMERICA'S

*Secret Weapon* #2*...and how SYLVANIA helped produce it!*

Sylvania Electric Products Inc. wins 22 of the 81 "E" Awards made by the Navy to 32 contractors who worked on the Radio Proximity Fuze Project!

# RADIO TUBES THAT ***SENSE*** TARGETS, → ***EXPLODE*** SHELLS! →

Tucked in the noses of anti-aircraft, field artillery and naval gun shells, these toughest, most precise little tubes in the world automatically detonate the projectiles within killing distance of their targets!

*A war project second only to the atomic bomb... carried on by the people of SYLVANIA ELECTRIC with utmost secrecy and success!*

WHILE Hitler built "secret weapons" with his propaganda machine, America put real ones into the fight—among them, radar and the radio proximity fuze.

Radio Proximity Fuze? The name itself doesn't convey much. But our naval gunners, our anti-aircraft and field artillerymen can tell you what it means, what it does.

Actually, this amazing fuze is a small, compact radio transmitting and receiving set, fitted in the nose of a shell. When fired, it sends out an unbroken radio signal. As the projectile comes within 100 feet of its target, this signal bounces back, creating an electrical charge which sets off the explosive.

The radio proximity fuze—very many times more effective than time fuzes—makes one gun as deadly as three or four—increases our offensive and defensive firing power several-fold!

Heart and brain of this sensational weapon is a tiny, precision-built radio tube. Words like "rugged" and "tough" can't describe it. How tough must a radio tube be to withstand the jolting shock of direct heavy gunfire? How rugged must it be to take the whirling speed of a shell in flight?

These problems were faced by Sylvania research scientists and engineers in 1941. Faced and licked! For early in 1942, Sylvania was mass-producing tubes for the radio proximity fuze.

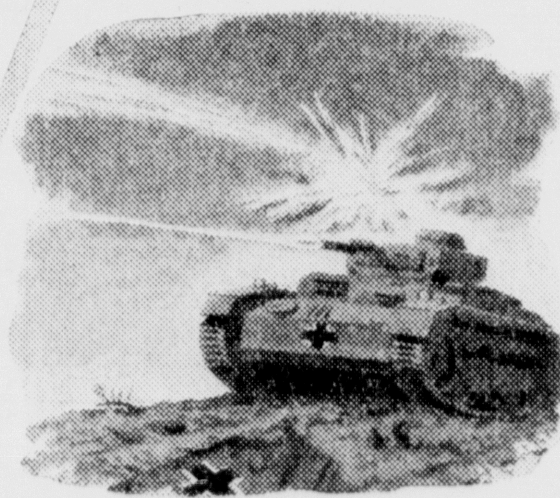

A million of these uniquely-designed electronic tubes were turned out every two and one-half days... over 140,000,000 during five war years. 95% of the entire usable production came from Sylvania. And during 1944-45, Sylvania was the only company manufacturing shell-exploding radio tubes for the Navy.

Making such exceptionally unusual tubes, in such vast quantities, in so short a time is a living testimonial to the skill and experience, devotion and loyalty of Sylvania's on the job. We are indeed proud of our thousands of people who, under strain of the most extreme secrecy and urgency, piled up such an astounding production record.

## HISTORY OF THE SYLVANIA SHELL-EXPLODING ELECTRONIC FUZES IN ACTION!

**ROBOT BOMBS**—Anti-aircraft battalions, supplied with radio proximity fuze-shells, blasted the effectiveness of German robot bomb attacks on England. On the last day of the now-famous sustained 80-day attack, only four of 104 robot bombs launched by the Nazis ever reached London. 16 fell into the sea, while anti-aircraft knocked out 68 of them. Our new secret weapon crushed Germany's last hope of victory.

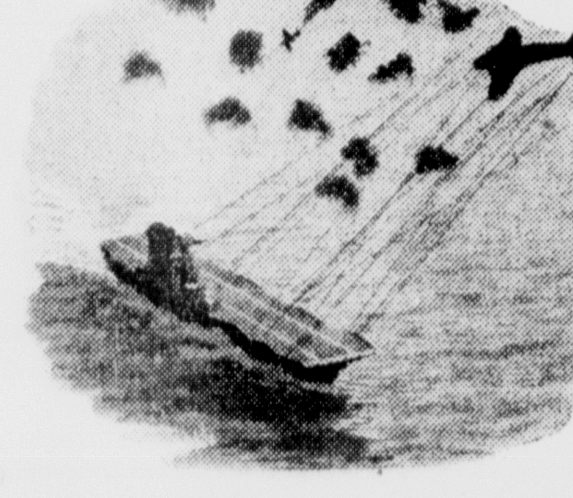

**BATTLE OF THE BULGE**—December, 1944. A bleak Christmas for Americans in Europe. Field Marshal von Rundstedt's armies had driven a tremendous wedge into Allied lines at Ardennes. As a counter measure, U.S. Ordnance threw radio proximity fuze-shells into battle. The tide turned. Our armies advanced once more. German prisoners agreed our artillery fire was the most destructive they'd ever faced.

**END OF THE LUFTWAFFE**—As part of the German's Ardennes counter-offensive, the then inactive Luftwaffe suddenly appeared in force. It disappeared with equal suddenness. German pilots had never encountered such devastating flak as came from our anti-aircraft batteries firing radio proximity fuze-ammunition. In a matter of a few weeks, these new type shells destroyed over 1000 German planes.

**IE SHIMA**—Thanks to radio proximity fuze-ammunition—a single battalion of American 90-mm guns was able to protect completely this vitally important little island in the Pacific against Japanese counter-attack... American units in the Philippines, on Guam, Okinawa and other Pacific battlefronts were able to knock out Jap lines of communication and supply dumps with comparative ease.

**KAMIKAZE**—As a last desperate measure to stop our advancing Army and Navy, the Japs turned to suicide planes. Most Kamikaze pilots joined their ancestors without completing their missions. Radio proximity fuze-shells blew up their explosive-laden craft before they reached their targets. The Jap high command admitted the total failure of Kamikaze, the Jap General in charge committed hara-kiri.

### Endocrine helps restore that youthful look to face and throat

Would you like the skin of your face, your throat, to grow younger looking again? If so, try ENDOCREME. ENDOCREME, with its 8-year record of success, is helping thousands to improve the very skin itself, not merely its superficial appearance. For thousands, it is doing this to a degree heretofore thought impossible. The secret of ENDOCREME's success is ACTIVOI. This ACTIVOI is a scientific replacement for woman's own skin-vitalizing substance. Thus, when you apply ENDOCREME, it is absorbed by the skin and helps to restore normal growth of cells and tissues. Thus, aging, dry, coarse, lined skins tend to become fresher, firmer, smoother, more youthfully attractive. How better can you invest your cosmetic dollars? Many report marked improvement in only 30 days.

## SOCIETY

### Western Director Installs Officers Of Local Auxiliary

Chief Complanter Unit, No. 135, American Legion Auxiliary, held its annual meeting at the Legion Home Wednesday evening. Following the business session, presided over by the president, Mrs. Milton Witz, the yearly reports were given, showing a prosperous year and a membership of 274. Mrs. Merle Graham gave a resume of the organization since the charter was granted in 1921.

The meeting was then turned over to Mrs. R. W. Kennard, of Philadelphia, western director, who installed newly elected officers as follows: President, Mrs. Witz; first vice president, Mrs. Howard Casey; second vice president, Mrs. Claude Hoover; treasurer, Mrs. Theodore Fox; secretary, Mrs. Richard Hansen; recording secretary, Mrs. C. D. Cannon; historian, Mrs. Merle Graham; chaplain, Mrs. Margaret Rowland; sergeant at arms, Mrs. Henry Fleckenstein. Officers of the newly organized unit at Sugar Grove were installed at the time by Mrs. Kennard.

The new slate of the local unit was named to attend the Inter-county Council meeting to be held at Kane on October 27, and the chairman of committees as alternates.

Following the installation ceremony, Mrs. Kennard gave an inspiring address to both units, and was then presented with a gift from the Warren group.

At the close of the meeting, Mrs. Melvin Johnson presented the past president's pin to Mrs. Witz, who responded pleasantly with her thanks to the organization and a request for continued cooperation.

Fall flowers and candles decorated the dining table from which a buffet luncheon was served to 60 ladies. Mrs. N. K. Wendelboe and Mrs. Florence Edwards presiding and Mrs. Emil Johnson heading the committee.

### Group Gathering Very Successful

(Special to Times-Mirror)

The annual group gathering of the American Union Sunday Schools of Starbuck, Yankee Bush and Pleasant was held in the Pleasant Grange Hall. It was the best attended of any such gathering in several years. Starbuck won the picture drawn by Rachel Gray for having the largest attendance.

After the various school had rendered their programs, the meeting was climaxed by the presence of Chief White Feather, who was introduced by Rev. Clarence Wessman, of Calvary Baptist church.

Chief White Feather sang several beautiful hymns, after which he told his life story, stating that after having tried many avenues of life in search of happiness and real satisfaction, it was finally found when he surrendered his life to Jesus Christ. This was brought about by his sister, when she placed a New Testament in his hand while ill in a hospital, proving again the authenticity of the Scriptures as recorded in John 8:32—"Ye shall know the truth, and the truth shall set you free."

In the absence of the Sunday school missionary, the meeting was dismissed by Rev. Ernest Kaebnick.

### Drama Promised For Sunday Play

Listeners are promised a half-hour of real suspense in the Sunday afternoon drama, Two Crooks and a Lady, from two o'clock until 2:30. This clever melodrama will be the fourth in the series sponsored by the Metzger-Wright Company and presented by members of the Warren Players.

Meredith Coe, one of the Warren Players, most experienced members, plays the role of Mrs. Simms Vane, the wealthy old lady. Carl Johnson, remembered especially for his fine work last year in Our Town, is playing the role of Miller, the Hawk, a gentleman crook. Mary Schellhammer, a newcomer in the Players, is doing a convincing piece of work as Lucille, the maid crook, "on the inside".

Georgia Spinney, who has been heard in previous radio plays, will be heard in the role of Miss Jones, the companion. Giulio Fino and John Erickson are the two police officers. Giulio is also handling sound effects, which are very important in the production.

**FRED RALSTON JENNINGS**  
(Contributed)  
The village of Tidououte awoke last Friday a. m. to learn with the deepest regret and sorrow, that Fred R. Jennings had died in the night. For the host of his friends the village will not be the same since Fred left them, for all of the 72 years of his life had been spent in Tidououte, so that there was scarcely a man, woman or child in the village or vicinity that Fred did not know, and who knowing him—loved him.

He was a friend to every one and he lived under the "laws of kindness." By his gentle words, kindly humor and large charity, he left such a gracious memory that many a man hearing of Fred's death said "They don't come any finer than Fred Jennings."

Mr. Jennings was born in Tidououte, October 10th, 1873, so he had just passed his 72nd birthday by one day when he died. Besides keeping the Grocery and General Merchandise Store which attracted to it a large clientele by the upright character of its proprietor, Fred was also interested in oil leases and associated in the management of the local bank.

Business men, and commercial travelers knowing Mr. Jennings through a half century of close contact, gave it as their testimony that they did not know any man more fair, highminded and honorable than he. His outlook was ever one of good cheer, and when a year ago a heart condition made it imperative for him to be absent from the store for many months, his friends were delighted when finally he occasionally was able to go down to the store each day for a little while, sowing his seeds of kindness and friendliness once more.

The great number of people which attended the funeral, more than could be accommodated, witnessed to the esteem in which he was held. The funeral was held Monday, Oct. 15th from his home on Main street. Although it was requested that no flowers be sent, there were a great many handsome tributes. The service was conducted by his friend—Dr. Prout the minister of the Presbyterian church, who, in the service, read many passages of Scripture which were singularly appropriate to the character of Mr. Jennings—among them the 15th Psalm.

Interment was made in the Tidououte cemetery, with the following acting as bearers: Archie Passauer, Francis Byers, Homer Prather, Karl Johnson, John Stewart, Clifford Williams—honorary bearers Melvin Rosequist and Will Yeager.

Mr. Jennings is survived by his

AIRPORT NEWS

Under the new revised Civil Air Regulations it is now possible to learn to fly and receive your Private Pilot's Certificate with greater ease and much less time spent on book study and ground school than has ever before been possible. A student may now learn to fly and receive his Private License with a minimum of 40 hours flying time. Thirty hours are solo and ten hours must be with an instructor. Five hours of this time is cross country. The written examinations have been cut down so that the applicant need only pass a test on Civil Air Regulations, and Air Traffic Rules. The examinations are issued by the Civil Aeronautics Administration and may be given by his or her instructor before they make their first solo cross country flight. This examination is very simple and when passed completes the applicant's qualifications and tests for a Private Certificate so far as written work is concerned, and is so entered on the student's Pilot Certificate by the instructor who gave the test. The flight instructors duty first,

duplication of effort to end . . . for the agency to think in terms of the individual, and how best to help him help himself. Charity has stopped being a dole. Johnson of the Council of Community Agencies. This conference is being sponsored by the Warren County Council of Community Agencies and the Forest County Welfare Agencies. the world, were charged individually and collectively with conspiring to wage war — a crime against humanity. In addition to the individuals, the prosecution will attempt to establish the responsibility of seven Nazi organizations—the German General staff and the high command, the German cabinet, the Leadership Corps of the Nazi party, the SS or Elite Guard, the Gestapo, the Storm Troopers and the German People's Police. The indictment charges a common plan or conspiracy to overthrow the treaty of Versailles, rearm Germany and to acquire territory for Germany by any means, war. The defendants are accused of crimes against peace and of planning and waging war against Poland, Britain, France, Denmark, Norway, Belgium, Holland, Luxembourg, Yugoslavia, Greece, Russia and the United States. Moreover, the Nazis were accused of waging total war and "deliberate" attempts at extermination of racial and national groups. Mass murders were charged in Russia, Poland and the Balkans, where the indictment said 9,365,000 persons were killed. "Thousands" of others died by gunfire and and executions elsewhere, the charges said. The defendants also were accused of complicity in crimes against humanity in countries which the Nazis occupied, piracy on the high seas, and of murdering and prosecuting any person suspected of hostility to the Nazi party and its plan for expansion in Europe.

Glider Carries Bombers' Fuel

One of the new developments in military flying equipment displayed in Air Technical Service Command's "Air Fair" at Wright Field, Dayton, Ohio, is the XFG-1 fuel glider, above, designed to carry 400 additional gallons of fuel to extend range of bombers.

Proposed as Capital for United Nations

Model of a proposed United Nations Center, designed by Architect Vincent G. Raney for location on San Francisco's Twin Peaks, is pictured above. Dominant feature would be lofty modernistic skyscraper, at right, for the Secretariat, Security Council, chiefs of staff and archives. Other features would include wings for Economic and Social Council, separate buildings for 60-odd participating nations, 10,000-seat assembly hall and museum in center capped by 150-foot translucent globe which would overlook waterfalls stair-stepping down hillside.

Beyond Tomorrow

By Helen R. Woodward

Chapter 8  
ANNE and Wayne sat in the drawing room of Mrs. McDowell's house and waited for its owner to come in and greet them. It was an enormous room—indeed everything about the house seemed to have been done on a scale of grandeur. Its immensity took the breath away, as it was no doubt built like in her appearance. Her neat black dress was utterly surprising to see that she was quite a small woman, almost bird-like in her appearance. Her neat black dress was unrelieved by jewelry with the exception of a fine old brooch at the throat. Her hands were small, very white and entirely ringless. Her tiny feet were encased in high-heeled, black leather slippers. Her black hair was parted in the middle, which gave her an appearance of docility and meekness. Only her eyes gave Edna McDowell away. They were as hard and cold as glittering black marble. Determination lurked in their depths as did evidence of an iron will that would brook no interference with its desire.  
Wayne sprang forward to meet her, drawing Anne with him. He was smiling happily, but a little tremor of nervous uneasiness was in his voice. "Well, here she is, Aunt Edna. Isn't she lovely?"  
He felt her fingers lightly touched by the small white hand. "Sit down, both of you," Mrs. McDowell ordered. "We'll have tea before we talk about your affairs."  
"What is there to talk about?" Anne wondered as an elderly maid brought delicious hot tea and paper-thin sandwiches. Wayne chattered in his usual gay style until they had finished eating and the tea things were taken away. Then Mrs. McDowell took matters into her own hands.  
"Wayne, I wish to speak to Miss Winslow alone. You will go upstairs until I send for you."  
Anne almost laughed aloud.  
Chapter 9  
MAJOR LOWELL had evidently been standing there for several minutes before Anne looked up from her typing and saw him. She didn't know why, but his very presence annoyed her exceedingly. Perhaps it was only because she had been jumpy and irritable all day. It seemed that she had done nothing all week but wait for Wayne to come in or call her, and for the most part her waiting had been in vain. Now it was Friday and before long it would be Saturday and Wayne would be home! He insisted that they should be married on Saturday and spend the weekend at the little mountain hotel that Eve had so heartily recommended. She had asked Mr. Farham to let her off an hour or two that morning to shop necessities. She had finally chosen a rose-wood frock and hat which did not please her at all but was the best she could find in the short time at her disposal.  
It seemed to her that anybody with half an eye could see that Mrs. McDowell was quite intent on enjoying her trip to the present marriage; but Wayne accepted each delay in good faith as if fate were behind it all and not his Aunt Edna! Now it was hours past the time when he had expected to take her to select a wedding ring and she had had no word from him.  
"Miss Winslow, I have a very great favor to ask of you—with Mr. Farham's permission, of course."  
She looked up at Major Lowell standing there by her desk. "Yes, Major?"  
"It seems that I'm to be allowed to borrow you for a short time!" His smile was rather engaging in his bronzed face. What on earth was he talking about? "You see, my secretary is having a bout with the flu and there are some really urgent papers I must have prepared. Mr. Farham said he would not need you for a while and that I might ask you to do them for me."  
"But I can't—that is—!" She was struggling to find the words to say that she was being married

on the morrow and that as soon as her fiancé called she was going out to select her wedding ring, when the phone at her elbow rang. She picked it up quickly. Wayne's voice came to her, troubled and unhappy.  
"I love you, Anne," he said simply.  
She blushed and stammered over her answer. With Major Lowell at her very elbow all she could say was, "I know, Wayne. You're not angry, are you, darling?"  
"No."  
"You don't sound very—very glad to talk to me."  
Desperately she said, "Wayne, I—I'm busy. I'll talk to you later—when you come to the office."  
"That's just the trouble," he said with a frown. "I won't be able to make it until rather late this afternoon!"  
"Oh, Wayne—again!"  
She tried to keep the exasperation out of her voice. She wanted desperately to say, "Do you want to marry me, or don't you? Do you want to please me, or your Aunt Edna? Make up your mind, Wayne." But she couldn't quarrel with him over the office telephone. She couldn't quarrel with him anyway. So all she said now was, "It's all right, Wayne. Whenever you can make it."  
"Anne, you're wonderful—and I adore you!" His voice was lifting already. "Will you wait for me this afternoon if I'm a little late?"  
She stood up and deliberately turned her back on Major Lowell. In a very low voice she said, "I'll always be waiting, Wayne—as long as you want me to."  
When she hung up the receiver and turned back again, Major Lowell was smiling at her sardonically. A look of bitterness lay across his eyes. "Maybe you're different," he said quietly. "but all girls don't wait."  
"It's very impolite to listen in on a telephone conversation that doesn't concern you!" she retorted caustically.  
He laughed. "Impolite! Rude! But very interesting!"  
"You said something about some dictation?"  
"Then you don't object?"  
"No, of course not."  
"Mr. Farham said I might use

## Which will be the bird of Peace?

It has been several months now since the fighting stopped in Europe. But few men have seen the legendary dove that was to herald the end of the war.

Instead, too many of the people of France, of the Netherlands, of Belgium and Poland and Greece, have been more familiar with the vulture.

For how can peace be glorious to those still ravaged by disease and hunger, who lack fuel for their roofless homes, and blankets and medicines for their children?

We on this side of the ocean have a tremendous stake in whether peace returns to the cities and fields of Europe. If war is to be followed by despair and violence, by uprisings and anarchy, instead of by hope and rebuilding, we, and all other nations, must suffer. And now, of all times, in our own interest, we must help.

Much is being done by our own and allied governments. But much that governments cannot do is needed. There are human services, desperately in demand, that only private agencies can provide. And there are, as yet, almost no European charities at work.

So, when you support the Allied Relief Agencies through a part of your gift to the Community War Fund, you are doing more than expressing comradeship to our friends who suffered most from war's destruction.

You are helping the cause of peace in a way that may be more effective than all the treaties. For you are helping to restore faith in the decency of man. And without that faith neither our allies nor we can have much hope of a world of co-operation.

You give only once a year to all the great causes combined in your Community War Fund, which, in turn, supports all the 21 agencies of the National War Fund. You give only once; you write only one check. This year, make it bigger than ever.

## WASHINGTON DAYBOOK

by Jack Stinnett

WASHINGTON—Incidental Information:

The stranger-than-fiction stories of this global war still will be turning up a decade from now—stories like the one the Netherlands Information Bureau here came across recently.

It's about the American in a Japanese prison camp in Java who built a radio receiving set in the hollow of his wooden leg.

Gaylord A. Buchanan, Claysville, Pa., lost his leg in his third year at the U. S. Naval Academy at Annapolis but was permitted to complete his course. An engineer for the Sperry Gyroscope Co., Buchanan was captured and interned in Java as the Japanese spread south. With two tiny acorn tubes another prisoner had salvaged, parts from a wrecked set found in the camp, a charcoal fire and bits of copper, Buchanan built the set into a small aluminum cup and fitted the cup into a recess hollowed out of his wooden leg.

A rectifier was built into a battered and discarded Dutch canteen and an aerial was made of wire supporting mosquito netting over one of the cots. With that the prisoners kept in touch with the outside world—until the tubes blew out.

A second set was constructed by Buchanan and Lt. Louis Emil Biechlin, USN, South Akron, O., but was too large for Buchanan's leg and finally was built into a pair of bath clogs with thick wooden soles over which the ingenious prisoners tacked strips of crepe rubber. Although Japanese guards watched and examined the prisoners constantly, the sets never were discovered.

THERE have been some complaints lately that WACs and War Department civilian employees are being used to answer congressmen's mail, although why this should be considered scandalous under the circumstances is a mystery.

In the Adjutant General's department, a staff of more than 100 has been assigned to answer letters to congressmen about demobilization. The congressmen send their queries over to the office and get back letters for them to sign and send out.

Who is better qualified to answer demobilization questions than War Department experts? And aren't they working for the taxpayers just like members of congress? If there's any little white fraud in a congressman sending these letters out over his own signature, it's the same any business man employs when he has a secretary answer letters he only signs.

TALL, gangling Earl of Halifax, back in this country as British ambassador, has the best one-line answer I have heard to questions about why the Churchill government was thrown out of office. After protesting that the vote that brought in the Labor government wasn't in any sense a personal repudiation of Winston Churchill, Lord Halifax says simply: "In our country, we vote for a party, not a man."

HAS anybody pointed out that the three B-29s which flew from Tokyo to demonstrate how suicide bombers could have struck at United States cities followed almost the identical route flown by the Japanese "goodwill mission" in August, 1939?

In that month and year the "Nippon," a Mitsubishi twin-engine transport, owned ostensibly by the publishers of two large Japanese newspapers, and flown ostensibly by civilian pilots, followed virtually the same route as far as Whitehorse, Canada, and then swung south. Could they have been trying to prove the same thing six years ago?
